BIOVAL

Who we are

Companies

Onco Vision GEM-IMAGING SA
kanteron systems
ASAC pharma
laurentia technologies
celeromics advanced bioinformatics
EDYPRO fertilizantes
instituto de medicina genómica imegen
Neuro PHARMATEST
VLT BIOPHARMA
BioInicia
idai nature
apeiron medical

Hospitals

La Fe Hospital Universitari
IIS Instituto de Investigación Sanitaria
INCLIVA Instituto de Investigación Sanitaria

Universities

Vniversitat de València
Universidad Católica de Valencia San Vicente Mártir

Research Centers

Príncipe Felipe Centro de Investigación
AIMPLAS Instituto Tecnológico del Plástico
ITI Instituto Tecnológico de Informática
ainia centro tecnológico

And many others…

BIOVAL contribution to the Ecosystem

2013: 10 new members
(6 newly created biocompanies)

2014: 27 new members
(8 newly created biocompanies)

2015: 7 new members
(3 n.c.bc)

TOTAL: 44 new members (17 n.c.bc)

III CONGRESO NACIONAL DE CIENTÍFICOS EMPRENDEDORES

INICIO EL CONGRESO SEDE INSCRIPCIÓN ACTUALIDAD COMITÉS PATROCINADORES

III Congreso Nacional de Científicos Emprendedores - 4 y 5 de noviembre

El método científico para emprender: fórmulas y consejos.

El objetivo de este congreso es despejar las incógnitas que surgen a un investigador que decide crear una empresa de base científica.

Plantearemos tanto las barreras como las oportunidades que rodean al emprender en el ámbito científico. Para ello, contaremos con expertos que analizarán los factores clave del emprendimiento, con casos de éxito en distintos campos.

REFERENCE LABORATORY

Single Gene Sequencing
and
Exome Sequencing

Business Areas

- **Food Safety**: GMO and Allergen detection, Species identification in food and feed.
- **Medical Genetics and Genomics**: from single gene sequencing to exomes and complete genomes.
- **Research Projects**: Next Generation Sequencing, Bioinformatics, Transcriptomics.

DENAMIC
Developmental neurotoxicity assessment of mixtures in children

CARDIO NEXT

CAP
Collaborative Analytics Platform

IMEGEN in numbers

- >2,000 tests available
- Custom development for new tests
- Growing portfolio based on market
- 8,000 samples processed per year
- 45 highly qualified scientists
- 6 new biotech companies incubated
- Sales in +15 countries
- 4,5 M € sales per year

From DNA testing services to products

Partnership with Life Technologies

(Thermo Fisher)

Master in Medical Genetics and Genomics
