

Professor Bernhard Wilpert

(1st March, 1936 – 20th August, 2007)

Co-founder of the European Network of Organizational Psychology, he was always active as member of the Coordinating Committee as person in charge before the [Maison des Sciences de L'Homme](#) Foundation. He finally lost his long and valiant fight against his illness, leukaemia. His last will was inviting people to make donations to the [Jose Carreras International Leukaemia Foundation](#).

ENOP members express their deepest sympathy to his wife, Czarina and his family, the children Gregory and Karin, and grandchildren, Sofia and Vincent.
