## Instructions for installing Mathematica

- Go to the web software.uv.es
- Click "Access to application" and introduce your user ID and password.
- Find the software Wolfram Mathematica (you can find it in the last page) corresponding to your operating system (Windows, Mac OS, etc.).
- Type "1" in the column "Licenses" and click "Request" (at the bottom of the page).
- Go to "My licenses" at the top the page and download the software by clicking on "Access".
- Once Mathematica is installed, you will need an activation key. You can get it by clicking on "Help" and then on the column "Code" (first row).
- Create a Wolfram account with your university email address (@alumni.uv.es or @uv.es) as Wolfram ID. Request an activation key by filling the corresponding form.
