

Candida albicans (Robin) Berkhout, A. 1923

CECT 1394; WDCM 00054

La Cepa Verificada CECT es un material de referencia recomendado por Normas Internacionales de Calidad como microorganismo control y que ha sido objeto de ensayo en la CECT con los resultados que se muestran en este certificado.

CECT Verified Strain is a reference material recommended as testing microorganism in International Quality Standards, and assayed at CECT with the results shown in this certificate.

CHARACTERIZATION

Miniaturized biochemical test API 20C AUX

*This result may vary

Identification: 99.2% / 97.4% ID *Candida albicans*

Growth on selective/differential culture media

SABOURAUD + CHLORAMPHENICOL

Development of pseudomycelium

SABOURAUD Agar

Typical colonial morphology

DRBC Agar

(Dichloran Rose Bengal Chloramphenicol)
Pink colonies and reduced size
