

## Observatory on Academic Criminology Programs

The most comprehensive information on academic criminology programs worldwide will soon be available through the website of the Observatory on Academic Criminology Programs ([www.criminology-programs.org](http://www.criminology-programs.org)). This website operates under the auspices of the International Society for Criminology, with the support of the European and American Society of Criminology and is hosted by the Leuven Institute of Criminology (K.U.Leuven, Belgium). The Observatory is not a commercial enterprise: its purpose is solely to promote the exchange of information on academic criminology programs. It provides its services for free in English, French and Spanish, addressed to entities, professionals and individuals from all over the world involved and interested in the subject. It seeks to be rigorous and independent in its work.

Make sure to register the programs offered by your institution on the Observatory website soon: It will take you only a few minutes and will soon give great visibility to your programs!
