APPLICATION AND PROCESSING OF DISSERTATIONS ON THE UNIVERSITY OF VALENCIA'S ONLINE SERVICE

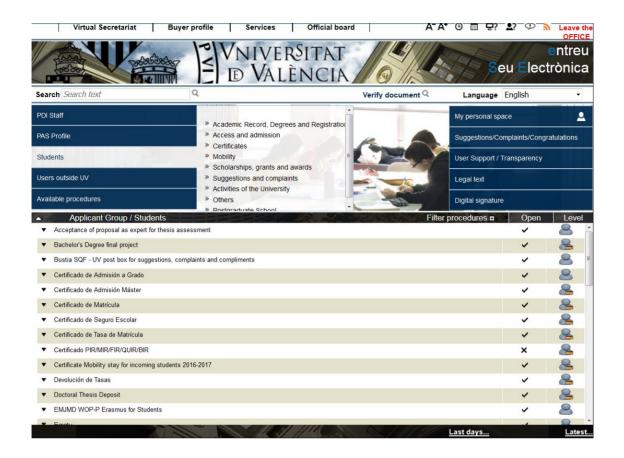

This process is carried out once the Undergraduate Dissertation (UD) has been completed and when the student is in possession of a final version ready for submission. This procedure is required of ALL undergraduates presenting their Dissertations.

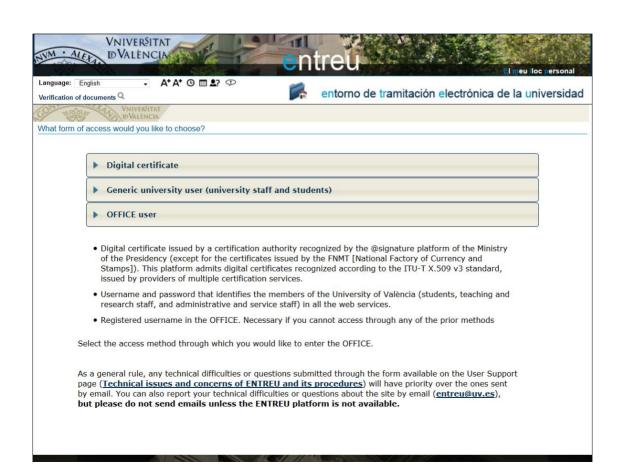

APPLICATION PROCESS (STUDENT)

Dissertations are processed via the University's Online service (entreu.uv.es) at the student's request, in accordance with the following procedure:

- 1. Students will identify themselves with the username and password of the University of Valencia.
- 2. All students making applications must be previously registered on the course corresponding to the UD.
- 3. Students shall provide details of their tutor/s in their applications.
- 4. Students shall submit their completed undergraduate dissertations in electronic format together with their applications. The maximum size of these files is restricted and should not exceed 100MB. This document is obligatory and shall be required for all evaluations and any ensuing defence and no applications shall subsequently be considered without these documents.
- 5. Finally, students receive a document which justifies the submission.

Students entering the entreu.uv.es will observe the following screens:

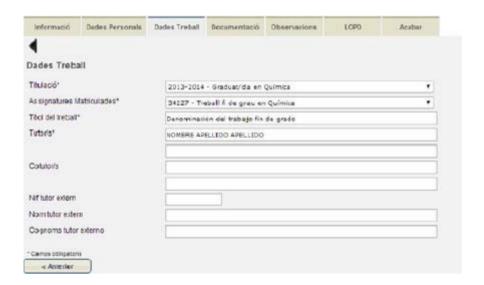

Students are required to complete the following forms in their application:

Personal data

Undergraduate dissertation data

Documentation

These fields are prepared for the obligatory attachment of the dissertation document and the optional attachment of one additional document. Students wishing to attach more than one additional document may do so by creating a compressed file incorporating all documents.

Observations

This final screen allows student to revise specific aspects of their application that may be relevant to the submission, processing and defence of their dissertations, in accordance with the criteria established for each degree course.

Finally, students receive this document:
