

VII VALÈNCIA SUMMER SCHOOL ON BUSINESS AND ECONOMICS' 2012

Criterion for the awarding of scholarships

The social programme of the Fundación La Caixa awards some scholarships of 450 euros to cover the price of the VII VALÈNCIA SUMMER SCHOOL ON BUSINESS AND ECONOMICS' 2012 courses. Therefore, the amount awarded covers the attendance fees, course material, lunches and meals for the 5 days, a guided visit round the city of Valencia, and the closure meal. The criterion for the awarding of scholarships is:

1. There are only scholarships for doctorate students (students should send documents to verify that they hold the doctorate student status). If the number of doctorate students accepted exceeds the maximum of scholarships, they will be pro-rated.
3. HALF-SCHOLARSHIPS: Scholarships of 2250 euros, for researchers: Researchers will be awarded half-scholarships with the remaining money (the status of researcher will be checked to verify that they hold this status). If the demand exceeds the number of scholarships available, the said amount will be prorated.
