**POLITICS**  
**&**  
**SOCIETY** a quarterly journal

Politics & Society publishes original analyses of politics, including its social roots and its consequences. In its broadest sense, politics encompasses conflicts over the shape of social life, whether on the shop floor, within the family, or in the realm of the state and the world economy. The quest for a good society is also enduringly a part of political life.

The journal deals with all aspects of politics, with particular emphasis on radical approaches. The specific articles deal with an extremely wide range of substantive topics, but in recent years has been particularly concerned with the relationship between class and state, the politics of gender, politics and underdevelopment, the transformation of the state in advanced capitalism, microfoundations of class theory, and the state in socialist societies.

Contributions are welcome from people of many disciplines, and they may take the form of theoretical essays, historical investigations, philosophical reflections, and empirical research. **Politics & Society** is committed to developing Marxist, post-Marxist, and other radical perspectives and examination of what Robert Lynd once called "some outrageous hypothesis".
