

Erratum in: Pausas JG, Ribeiro E. 2013. The global fire–productivity relationship. *Global Ecology and Biogeography* 22: 728-736.

In Figure 3b (right) there is a mistake in the x-axis, where it says NDVI should say Biomass ($g_{DM}/m^2/Y/ha$). Biomass was obtained from FAO global maps (http://www.fao.org/nr/climpag/climate/index_en.asp). For clarification below we show the same figures for both NDVI and Biomass. The figures are not very different, but the units clearly differ.
