Term	Explanation
CIP	abbreviation for the Competitiveness and Innovation Framework Programme (2007/2013), which is one of the funding instruments of the EU to support research and innovation. CIP fosters the competitiveness of enterprises, in particular of SMEs.
Collaborative Projects	are research projects with the aim of generating new knowledge. This new knowledge can be used to develop a new technology, process or product. They can vary in size, scope and budget, depending upon the proposed topic and theme.
Community Registered Design	is a design registered with the Office for Harmonization in the Internal Market (Trade Marks and Designs) (OHIM); it is granted EU-wide protection.
Community Trade Mark System	is the trademark system which applies in the European Union, registration of a trademark with the Office for Harmonization in the Internal Market (Trade Marks and Designs) (OHIM); it leads to a registration which is effective throughout the EU.
Confidential information	is information of a confidential nature that may include information of a personal, scientific, industrial, business, or commercial nature, that is not available to the public.
Confidentiality agreement	also known as non-disclosure agreement (NDA), refers to the written agreement that parties use when they wish to disclose information and ideas in confidence. This agreement therefore establishes the obligation of the recipient (i.e. the legal person to whom the information is disclosed) to not disclose the information and ideas to third parties. A confidentiality agreement is crucial for an inventor or any other party that needs to protect confidential information.
Consortium	is - in general - a group of institutions or companies acting together in the same project under common interest. In FP7 it refers to all the participants in the same project.
Consortium Agreement	is an agreement that participants conclude amongst themselves for the implementation of a project. The agreement allows the participants to determine the detailed administrative and management provisions necessary to carry out their project. Within this agreement, parties also outline the rights and responsibilities of each member of the consortium. This agreement cannot contradict or negate the provisions established by the EC contract or the rules for participation.
Copyright	is the legal right granted to an author, composer, playwright, publisher or distributor to exclusive publication, production, sale, or distribution of literary, musical, dramatic, or artistic work.
CORDIS	the Community Research and Development Information System is a huge internet information system comprising information about FP7 and its specific programmes, current calls for proposals, partner search facilities, an electronic proposal submission system (EPSS) and many more features related RTD.

## Partners Service: Visualisation of concept

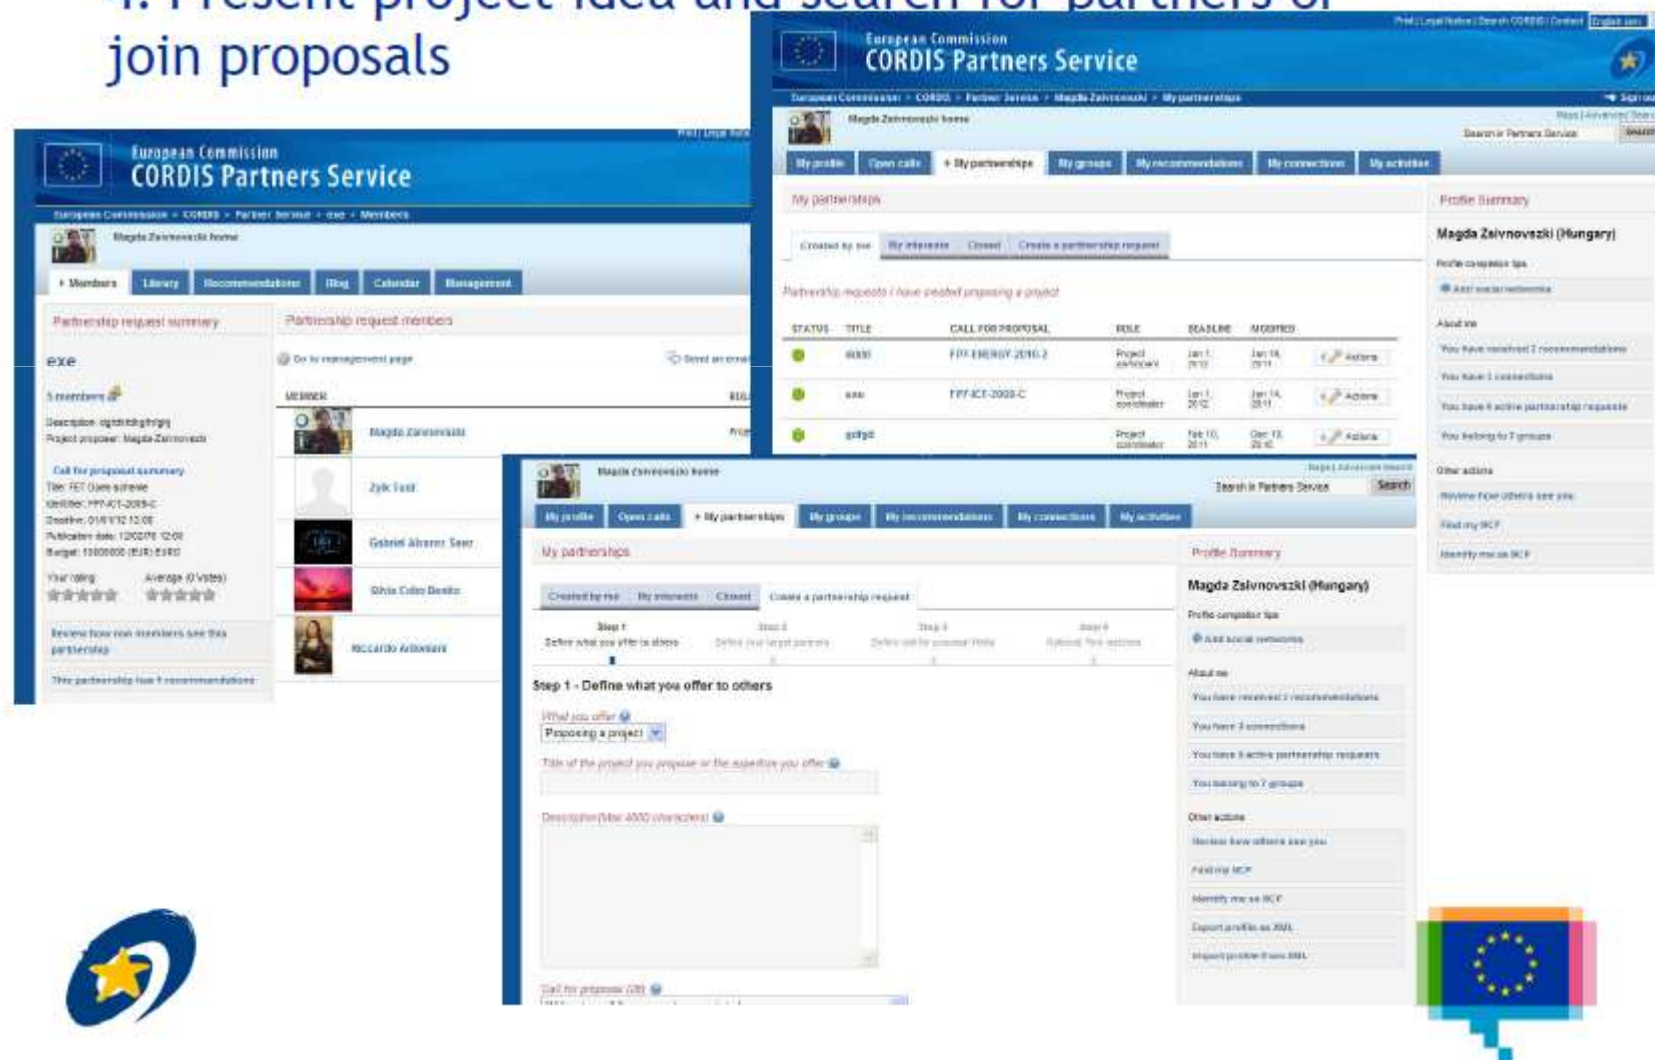

The screenshot shows the CORDIS Partners Service interface. Seven numbered callouts are overlaid on the interface, describing the workflow:

1. Create your profile
2. Search for people you know
3. Create/join a group and interact
4. Present project idea and search for partners/join proposals
5. Check for funding
6. Ask to be recommended
7. Check/follow your activities

The interface displays the profile of Magda Zsivnovszki (Hungary). The profile includes contact details, a map of Budapest, and a summary of her expertise in Information and Communication Technology (ICT), Information Processing - Information Systems, and Scientific Research. The profile completeness is shown as 78% completed.

## 4. Present project idea and search for partners or join proposals

The screenshot displays the European Commission CORDIS Partners Service interface. The main header shows the user's profile: Magda Zelnovszki (Hungary). The interface is divided into several sections:

- Partnership request summary:** Displays details for a request titled "exe". It includes the description, project proposer (Magda Zelnovszki), call for proposal summary, and a table of ratings.
- Partnership request members:** Lists the members of the request, including Magda Zelnovszki, Zoltan, Gabriel Albert, Sam, and Riccardo Antonelli.
- My partnerships:** A table showing the user's active partnerships, including their status, title, call for proposal, role, deadline, and next steps.
- Profile Summary:** Provides a quick overview of the user's profile, including their name, location, and a list of recommendations.
- Step 1 - Define what you offer to others:** A section for defining the user's offer, including a title, description, and a list of recommendations.

The interface also includes a search bar and a list of recommendations on the right side.
