

Sixth Community Aeronautics Days

Aerodays 2011

Innovation for a Sustainable Aviation in a Global Environment

Madrid / Spain

30th March - 1st April 2011

Organized by:

FP7 Information Day (Madrid, 14/09/2010)

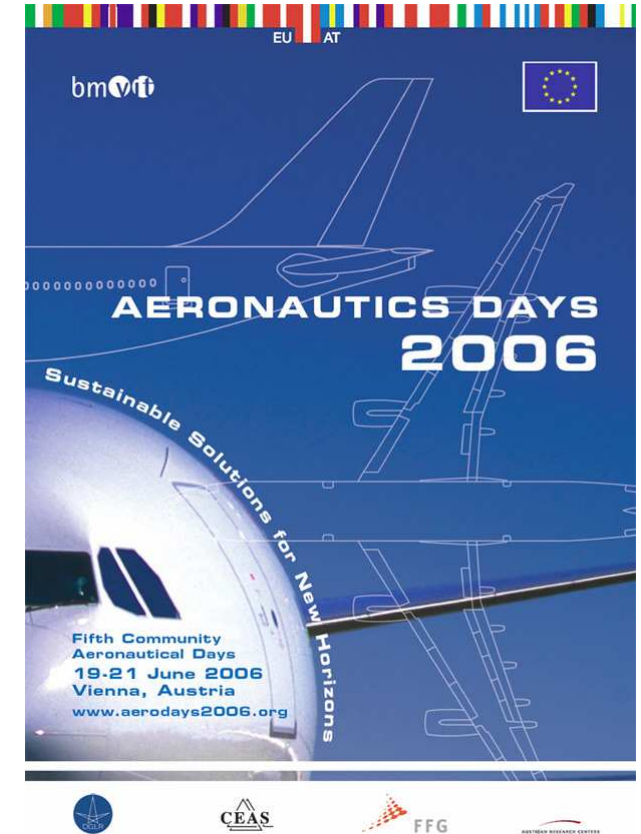

Centro para el Desarrollo
Tecnológico Industrial

AERODAYS 2011 - INTRODUCTION

Introduction

- Following on **from successful predecessors** that took place in Brussels (1991), Naples (1993), Toulouse (1997), Hamburg (2001) and Vienna (2006)
- The sixth Aeronautics Days will **take place on 30th & 31st of March and 1st April in Madrid**
- The event will bring together **aeronautics stakeholders, ministries, agencies and RTD centres from all over Europe and overseas** to network, present results and discuss common future RTD projects
- **AERODAYS 2011** will provide a perfect opportunity to present and disseminate information about **EU-funded RTD results**, and will be in line with the EU goals of creating a **Single European Sky**, a common area of **research** and a sustainable aviation for a global environment

AERODAYS 2011 - OBJECTIVES

Conference Objectives

- To link the **political “top-down” messages** of key stakeholders on the developments in aeronautics and air transport concerning research and innovation
- To report on the **latest advances in aeronautics** world-wide and to encourage new partnership in **collaborative projects**
- To present **technological achievements** and ongoing research and technological development by RTD activities from the Framework Programme of the EU, national and international research actions as well as European large scale technology initiatives (JTI Clean Sky, SESAR, GALILEO...)
- A forum for the **review process of meeting the Vision 2020 goals** and the Aeronautics Strategic Research Agenda
- An opportunity to present a view of the **future FP8 and the presentation of the ACARE Vision 2050**

AERODAYS 2011 – ORGANIZERS

EUROPEAN COMMISSION

- Directorate General for RESEARCH, under the Seventh Framework Programme

CDTI

- The Centre for the Development of Industrial Technology (CDTI) is a Spanish public organisation, under the Ministry of Science and Innovation
- CDTI is in charge of evaluating and financing the technological development, innovation and modernization projects developed by Spanish companies

OTHERS

AERODAYS 2011 – FEATURES

Main Conference Features

- Up to **1000 participants** expected from Europe and overseas
- **Keynote and Plenary speeches** by main political actors involve in aeronautics, research and innovation from European Commission, Member States, European Parliament, Spanish Ministries and Regional Government, Industry and Research
- Substantial **parallel sessions** structured by the challenges of SRA2 and addressing key activities of FP7
- Additionally **special sessions** on international Co-operation, National activities, GARTEUR, JTI 'Clean Sky', SESAR and others
- **Attractive side events:** Technology and poster exhibitions and Information stands
- **Possible special meetings** such as Programme Committee Transport, ACARE Plenary, FP NCP, AirTn2 or project meetings (Cooperateus, EASA R&T, etc)
- **Conference excursions** to interesting Spanish aerospace facilities

AERODAYS 2011 – STRUCTURE OF THE CONFERENCE (TBD)

	30th March WEDNESDAY	31st March THURSDAY	1st April FRIDAY
Morning Events (09:00-13:00 aprox.)	Registration	Plenary Session 2 (1 hour)	Plenary Session 4 (1hour)
	Opening Ceremony (2hours)	Parallel Sessions 3 (1½hour)	Parallel Sessions 6 (1½hours)
	Exhibition Opening	Parallel Sessions 4 (1½hour)	Closing Ceremony (13:00 p.m.)
Afternoon Events (13:00-18:00 aprox.)	Plenary Session 1 (1hour)	Plenary Session 3 (1hour)	
	Parallel Sessions 1 (1½hours) <small>7 sessions at the same time with at least 4 presentations each</small>	Parallel Sessions 5 (1½hours)	
	Parallel Sessions 2 (1½hours)		
	Official Dinner (TBD, 19:00 p.m.)	Conference Excursions (16:00 p.m.)	Social Event (TBD, 17:00 p.m.)

AERODAYS 2011 – VENUE

VENUE : PALACIO MUNICIPAL DE CONGRESOS DE MADRID

- Near to Barajas Airport and City Centre (easily access by public transport)
- The facility has a large exhibition area, two auditoriums, an all-purpose hall, and thirty rooms and halls with different capacities

AERODAYS 2011 – CONFERENCE EXCURSIONS (TBC)

Spanish aerospace centres:

- EADS
- Indra Sistemas
- ITP
- AENA - New Terminal 4 – Barajas Airport
- INTA
- IBERIA Maintenance
