Annex 1 shows the course load and equivalencies between UNF and UV for students participating in the Dual degree program.

This Annex 1 will be reviewed by the Monitoring Committee of the Agreement every year to ensure consistency and reflect curricular changes at any institution. A detailed outline of the program of study followed by the international dual degree-seeking UV and UNF students will be established and communicated in writing by Program Directors of each institution six (6) months prior to the effective date the student exchange takes place.

5. The program of study at UV will consist of regularly offered courses taught in English or Spanish. These include (but are not necessarily limited to) courses in the areas of management, international business, finance and marketing.

6. The program of study at UNF will consist of regularly offered courses taught in English. These include (but are not necessarily limited to) courses in the areas of management, finance, economics, operations or marketing. A majority of these courses will be taught by regular UNF faculty.

7. Both universities shall recognize the subjects and acquired competences in the study periods at the home and host institutions. Both institutions shall recognize completed credits from the home institution within their own degree program.

8. Both institutions shall agree on a conversion chart of the existing qualification and assessment systems at each institution. In case of modification, this shall be validated by the person in charge of the program at each institution.

9. To the degree reasonably possible, each institution will make internship opportunities available to students as part of their exchange program requirements. The internships will be in students' areas of concentration.

10. Parity in number of exchange students is required over the term of the Agreement. For the purpose of calculating parity, one (1) academic year student is equal to (a) two (2) one-semester students. Allowance can be made for small imbalances on a semester or annual basis, but such imbalances should not exceed the equivalent of five students per year and shall be resolved by the end of the term. The host institution will have the final decision on how many exchange students it is willing to accept for any given year.

11. The institutions will review the balance every four (4) years.

12. In the event of not exhausting the places provided by the Dual Degree program, universities may select exchange students for one semester or annual (two semesters) so that the remaining semesters are completed.

III. Publicity

1. Each institution shall include a description of the Dual Degree program, including degree requirements, in printed materials available to students and on its website.

2. Each party may use the name of the other for the purpose of promoting the objectives identified in Article I of this Agreement.

IV. Attention to Students

1. The institutions agree to notify each other of emergency situations involving their respective exchange students. Upon arrival, each student shall provide the host institution with the names, addresses, and telephone numbers of two individuals who may be contacted in case of emergency with regard to the student.

2. Each institution will assist students in finding appropriate housing, whether on campus or off campus. The student is solely responsible for the cost of his/her housing.

V. Selection of Participants

1. UV students must apply to UNF for participation in the program by April 1 for all courses of studies, including international dual degrees, academic year, semester or summer session exchanges. UNF students must apply to UV for participation in the program until the end of May for study during the fall semester. Both institutions agree to accept students who have been selected by the other institution to participate in the respective degree programs on a reciprocal basis.
2. Each institution will forward to the partner institution only its most qualified applicants each year. Each institution will have the final authority to determine which students from the partner institution will be allowed to undertake a course of study, provided that neither institution shall determine qualified applicants on the basis of any non-educational criteria, including, but not limited to race, color, age, gender, national origin, marital status or religion. Anyway, both institutions agree to select students by objective and specific criteria, based on equality, merit and ability.
3. Each institution shall take all reasonable and legally mandated steps to provide access to the program to persons with physical disabilities.
4. Each institution will require of any student participant a minimum acceptable level of competency in the language of the host institution.
5. Students will follow the application requirements and procedures established by the partner institution.

VI. Costs

1. Exchange students will be charged a tuition fee at the home institution and not at the host institution. The institutions therefore agree to exchange students on the basis of no-fees reciprocity.

2. Exchange students at both institutions will be provided access to internet services, labs, library materials and other educational and social facilities that are available free of charge to the regularly enrolled students of their respective institution.
3. The cost of travel, room and board, required immunizations, and other personal expenses are the responsibility of each student and shall be paid from his/her own funds.
4. Each student must pay the administrative fees corresponding to the host university, such as school insurance, the university card and the certificate of academic record.
5. In the event a student is required to retake a particular course, he/she will be responsible for any expenses associated with repeating the course.
6. Each student will be responsible for his/her own visa application and associated costs. If the student requires an enrollment confirmation or invitation letter from the host institution prior to studies to secure a visa or grant, this confirmation shall be sent as early as possible by the host institution.
7. Each exchange student will be required to obtain, at his/her cost, an insurance to cover health care services and repatriation, and, where appropriate, a civil liability insurance

VII. Coordination of Curricula and Academic Policies

1. The institutions will cooperate in coordinating their curricula, academic policies and requirements of the degree object of this agreement in order to ensure mutually coordinated curricular requirements, grade equivalency, academic remediation, and the like.
2. With this motive, a Monitoring Commission of the Agreement will be set up responsible for the coordination and administrative management of the exchange under this agreement. Each of the universities will appoint their coordinators or coordinators who will be part of the joint committee to monitor the agreement and that will be specified in the Annex 2.

VIII. Degree Requirements

Upon successful completion of the courses of studies each Dual Degree Program student will receive two official degrees that have received positive verification from the correspondent National Agencies:

Annex 1: Dual Degree International Business Program

University of North Florida, Coggin College of Business & Universidad de Valencia

The International Business Flagship Program is proposing an undergraduate dual degree program, with a major in International Business.

In addition to meeting other UNF and UV requirements, all candidates must complete an admission interview by their home school. All dual degree students will spend 2 years at each university. Students will take a minimum of 45 hours at UNF with at least 15 at the upper division.

All students will complete the requirements for the UNF BBA in International Business and the requirements for UV-FdE's Degree in International Business. Instruction will be in both English and Spanish. Although UNF students will be given the opportunity to take all classes in English, proficiency through Intermediate Spanish II is required of UNF students so UNF students must continue to take Spanish language during each semester in the program. Students who have demonstrated higher-level Spanish language proficiency will be encouraged to take business classes offered in Spanish. Students will complete both an internship and a thesis before graduating.

The three pillars of the International Business Major have been: 1) foreign language, 2) an internship and 3) study abroad. In comparison to the traditional IB major the dual degree program will have 7 semesters of Spanish language compared to 4 in the current program; will have an internship of at least 240 hours that must be completed abroad compared to 200 hours that can be completed in the US for the current program; and will require 4 semesters abroad compared to a minimum of 4 weeks in the current program.

A Comparison of the Three Pillars of the International Business Program		
	Current BBA International Business at UNF	Degree in International Business at uv
Foreign language requirement	4 semesters of college level language	7 semesters of college level Spanish
Internship requirement	180 hours at a domestic or international location at an organization doing international business	240 hours at an organization doing international business
Study abroad requirement	4 weeks or more	4 semesters
