## ***“Organic Fluorine Chemistry; from the Fundamentals to the Applications Contents”***

### **PROGRAMA**

1. Some Physical Properties of Organic Fluorine Compounds
2. Electronic Effects of Fluorine and CF<sub>3</sub>-group
3. Steric Effect of Fluorine and Fluoroalkyl-group
5. Radical Chemistry of Fluorinated Compounds
6. Unique Reactions Induced by Fluorine
7. Fluorine-activated Electrophilic Reagents
8. Unique Phenomena Induced by Fluorine-Metal Interaction
9. Fluorine in Drug Designs !
