

Walter D. Furlan is a member of the interdisciplinary research group DiOG (<http://diog.webs.upv.es>) and is responsible for the leadership and management of the ophthalmic and optometric applications developed by the group at the University of Valencia. He received his MS and Ph.D. degrees in physics from the University of La Plata (Argentina) in 1984 and 1988, respectively. From 1984 to 1990, he conducted research work at the Centro de Investigaciones Opticas (CIOp) in Argentina. In 1990, he joined the Optics Department of the University of Valencia, Spain, where he is currently a Professor of Optics. He has published more than 100 peer-reviewed papers and has been invited to lecture at several international conferences and research centers. His research interests include diffractive optics, visual optics, and optometry.
