HANDOUT 22.1: PERIODIC HEART HEALTH SCREEN

What is coronary heart disease? See
<http://www.nhlbisupport.com/chd1/chdexp.htm>

Routine minimal heart attack risk screening includes:

- Total cholesterol in:
 - men 35–65 years of age
 - women 45–65 years of age
 - familial hyperlipidaemia or two CHD risk factors in men <35 or women <45
- HDL cholesterol in persons with raised total cholesterol
- Blood pressure
- Smoking history
- BMI and waist circumference. See also
