

BH&LQG

Black Holes and Loop Quantum Gravity

VALENCIA (Spain), March 26-28, 2009

<http://www.uv.es/bhlqg>

Topics

- Black hole entropy in LQG
- Spin foam approach to black holes
- Singularity resolution and information loss
- Prospects for a detailed description of Hawking radiation
- Comparison between results from LQG and other approaches

Scientific Committee

Abhay Ashtekar (Penn State)
Fernando Barbero (CSIC)
Alejandro Corichi (UNAM)
Jerzy Lewandowski (U.Warszawski)
Guillermo Mena (CSIC)
Hanno Sahlmann (U.Hamburg)
Thomas Thiemann (AEI)
Madhavan Varadarajan (Raman Institute)

Local organizing Committee

Iván Agulló
Fernando Barbero
Enrique F. Borja
Jacobo Díaz-Polo
Víctor Reglero
Andrés Russu
Eduardo J. S. Villaseñor
Beatriz Sánchez
