

---

Rosa Herráez-Hernández obtained a BSc degree in Chemistry in 1989, and the Ph. D. degree in 1992, both in the University of Valencia. From 1997 she is an Assistant Professor and from 2012 Professor at the Department of Analytical Chemistry of University of Valencia. She has developed teaching activities in the faculties of Chemistry, Pharmacy, Physics and Biology, and in the Technical School of Engineering. She has also participated in different educational innovation projects sponsored by the University of Valencia.

Her research work has been developed mainly in the area of liquid chromatography, in the research group MINTOTA lead by Prof. Pilar Campíns-Falcó. In 1994 She got a postdoc grant for an stay in the Free University of Amsterdam (Netherlands). She has supervised sponsored research projects related to the analysis of drugs and environmental pollutants. Currently, she is working on the design and development of capillary liquid chromatography and nanochromatography analyzers in order to monitorize and characterize the environment.
