

RED VALENCIANA DE

GENÓMICA Y PROTEÓMICA

Novena REUNIÓN DE LA RED VALENCIANA DE GENÓMICA Y PROTEÓMICA

9th Meeting of the Valencian Network for Genomics & Proteomics

Salón de Actos Charles Darwin de las Facultades de Ciencias de la UV.

4 de Noviembre de 2011

9.15 h. Meeting Welcome.

José E. Pérez. *Departamento de Bioquímica y Biología Molecular. Universitat de València.*

9:30 h. Invited Scientific Presentations. Session I: Proteomics: Chairman: Juanjo Calvete.

9:30 h. Javier Muñoz Peralta, Utrecht University. The Netherlands
Mass spectrometry-based proteomics in current biology

10:15 h. Reto Stöcklin. Atheris laboratories. Geneva. Switzerland.
Venomics for drug discovery: integrating venomous animals genomics, transcriptomics proteomics and bioinformatics

11:00 h. Coffee-break and visit to posters.

11:30 h. Session II: Genomes and Systems Biology. Chairwoman: Rosario Gil.

11:30 h. Arcadi Navarro. Universitat Pompeu Fabra.
The truth under GWAS. Are the major contributors to genomic risk for complex disease common to all humankind?

12:15 h. Amparo Latorre. Institut Cavanilles de Biodiversitat i Biología Evolutiva. UV.
Serratia symbiotica: a missing link between facultative and obligate insect endosymbionts

13:00 h. Time for lunch and visit to posters.

15:00 h. Session III: Functional Genomics in Yeast. Chairwoman: Paula Alepuz.

15:00 h. José Ramos. Universidad de Córdoba.
Translucent 1-2: A multidisciplinary approach to the study of cation homeostasis in the yeast Saccharomyces cerevisiae

15:45 h. Per Sunnerhagen. Göteborg University. Sweden.
Global stress-induced changes in mRNA storage and translation

16:30 h. Poster session. Beer and snacks available.

18:00 h. End of the meeting.

Free entrance/Asistencia libre
