

Project Number: 257401

A highly integrated and sensitive POrous Silicon based lab on a chip for multiple quantitaTIVE monitoring of food allergies at point of care.

Specific Targeted Research Project

Information Society Technologies

Deliverable D11.7: Update and distribution of promotional material by a newsletter presenting the project and the consortium as well as including publishable project progress/results information.

Due date of deliverable: **August 31 2011**

Actual submission date: **October 25 2011**

Start date of project: 2010-09-01

Duration: 3 Years

Organisation name of lead contractor for this deliverable: **UVEG**

Revision **[1.0]**

Project co-funded by the European Commission within the Seventh Framework Programme		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

1 About this deliverable

1.1 Introduction

1.1.1 Starting point

At the beginning of the project promotional material was prepared presenting the Positive project, its consortium and project progress/results and consisted of a slide project presentation, a project brochure/flyer and a project poster.

All this material is downloadable by the general public via the Positive website: <http://www.fp7positive.eu>

The slide project presentation and poster will be used by the partners where possible for general dissemination of the project. A newsletter based on the initial flyer was created and electronically distributed to the >100 Positive INTEREST GROUP partners in December, 2010.

1.1.2 Work done

Since its initial creation, all documentation has been updated to reflect the amendment to the contract. This documentation is enclosed.

At the end of year one a newsletter outlining achievements of Year 1, UNITN and their porous silicon membrane development was sent to the Positive INTEREST GROUP in October 2011.

1.2 Scope of the deliverable

The deliverable really just informs of the update and distribution of various promotional material announcing the progress of the Positive project.

1.3 Structure of this deliverable

The report is laid out according to the tasks defined in WP11 as follows:

T11.2: Creation and distribution of promotional material such as Positive project leaflets/flyers/brochures, posters, videos, 2/3 slide presentation, newsletter, etc., available for broader distribution at key events and through a regularly updated database of contacts (including newcomers registering through the web-site) (UVEG)

2 Description of work performed

2.1 T11.2: Creation and distribution of promotional material (UVEG)

This task covers the update and distribution of promotional material such as Positive project leaflets/flyers/brochures, posters, videos, 2/3 slide presentation, newsletter, etc., available for broader distribution at key events and through a regularly updated database of contacts (including newcomers registering through the web-site). The latest flyer is attached.

3 Conclusions

Promotional material has been created for disseminating the project and will be updated later periodically.

4 Near future planning/Future work/

The promotional material will be updated in D11.12, D11.14, D11.17.
