

HOPE & ACT

MAY 2021

TOWARDS A PEDAGOGY OF HOPE, RESILIENCE AND ACTION

Hope&Act is inspired by Paulo Freire's Pedagogy of Hope, where he notes that although hope alone is not enough to achieve liberation, without hope there is no struggle at all. Freire emphasizes the importance of the relationship between educators and students and moves away from the banking model of education.

Through the formal curricula we will explore how this pedagogy of hope and values based learning can be weaved into our everyday classroom encounters to form the cornerstone of education and learning.

The SDGs are a helpful tool for enhancing existing curricula and engaging the whole school community to consider the relationship between the local and the global.

HOPE & ACT

In our Erasmus+ funded project the SDGs will be used as a framework and tool to support students develop their research, problem solving, teamwork, leadership and communication skills.

HOPE & ACT

Teachers across our partner countries can receive free training on using the SDGs to deliver both the formal and the informal curriculum as well as methodologies to enhance pupils' critical thinking skills.

**WE ARE OFFERING
FULLY-FUNDED
SPACES FOR
TEACHERS**

Innovating curricula
for inclusive & global
citizenship through
the framework of the
UN Global Goals
(SDGs)

Training sessions will support teachers to:

- Using the SDGS to deliver curriculum objectives
- Develop facilitation, project management skills and pupil leadership
- Facilitate pupil-led community cohesion projects
- Trial activities, resources and lesson plans to develop pupils' critical thinking, including building a community of enquiry in the classroom (schools involved will be credited in the final project toolkit.)

HOPE & ACT
