DELE preparation courses

Academic Year 2023-2024

DELE Preparation Courses (40 hours)

The preparation courses for the Diplomas of Spanish as a Foreign Language (DELE) provide students with tools to pass the different tasks and tests they will face in the exams.

Throughout the course, the four skills are worked on, and the students are placed in an examination situation so that they learn, on the one hand, to manage the time of the different tests and, on the other hand, the most appropriate mechanisms to solve difficulties that may arise during the exam. Likewise, in these courses, mock oral tests are carried out, such as the one that they must pass so that the students are aware of how they should face this part of the exam and what they are going to be asked for. Students only must choose which level they are going to prepare taking in account their communicative competence and their knowledge of the language.

These courses are open to all types of publics, both university and non-university students. It is an intensive course with a total duration of 40 hours. The courses are from Monday to Thursday with classes of 2 hours per day.
