Section to be completed BEFORE THE MOBILITY

I. PROPOSED MOBILITY PROGRAMME

Planned period of the training activity: from [13/04/2015] till [17/04/2015]

- Additional day for travel needed directly before the first day of the activity abroad
- Additional day for travel needed directly following the last day of the activity abroad

Overall objectives of the mobility:

The general objective is based on obtaining first a general idea of the institution of destination, as much close as possible; how works the institution, its services, faculties, etc.

Exchange knowledges and experiences with the staff working on it.

Through the exchange, we can get to know the similarities and differences of working methods in foreign universities that would not be possible without this approach.

Secondly, this exchange may offer outcomes such a acqulsition of knowledges and positive improvement ideas wich could be exported to our University.

The university of destination was founded in 1453 and therefore has a long history and tradition.

Added value of the mobility (both for the institutions involved and for the staff member):

The cultural exchange, vision, ideas and knowledge is an unquestionable increase of personal skills in the management of situations, that, ultimately, is one of the objectives that specify the Commission for these scholarships. On the other hand, the obligation to use other languages, promotes constant learning which later affects its use in the University of origin.
