

**19th IWA World Conference
on Anaerobic Digestion**
Fueling Sustainability

**June 9–13, 2026
Valencia**

WORKSHOP
**“MAINSTREAM ANAEROBIC TREATMENT IN TRANSITION: LESSONS LEARNED AND
OPPORTUNITIES AHEAD” at**
19th IWA World Conference on Anaerobic Digestion (IWA AD19)

Tuesday, June 9th 2026

Time	Topic	Presenter /Moderator
12.30- 13.30	Working lunch and welcome	A. Bouzas
13:30- 13:45	Welcome and presentation of the workshop	Z. Arbib J. Serratla
	AnMBR: An integrated solution for treating urban wastewater and the organic fraction of municipal solid waste. REWAISE demo project (H2020 n° 869496)	M. Elvira
13:45- 15:00	Anaerobic treatment under extreme weather conditions and low-strength wastewater	C. Holohan
	UASB reactors in municipal wastewater treatment plants under tropical climate conditions: Insights from Brazil	F. J. C. Magalhães M. A. Boncz
	What about nutrient if there is no irrigation? Recovery versus removal. REWAISE demo project experiences (H2020 n° 869496)	J. Carrillo
	Upgrading biogas or burning it? Pathways to energy self-sufficiency in 2045	R. Muñoz
15:00- 15:30	Coffee break	
15:30- 16:50	Discussion Low Temperature and low strength Current technologies vs new technologies Membrane fouling mitigation Dissolved sulphide and methane emissions Water for fertigation Nutrient removal and/or recovery Biogas upgrading Size matter for the implementation: decentralized	All lecturers
16:50- 17:00	Workshop conclusions and take-home messages	Z. Arbib J. Serratla
