Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity to join an IT team, within an education organisation and will suit a candidate interested in a career in business processes, engineering, and IT. Mentored throughout, your focus will be reviewing, researching and analysing the current business processes, evaluating the results and challenging the status quo. You will be required to work at all levels within the organisation, with customers and with external service providers to ensure that new IT systems are configured towards fulfilling the organisation's strategic aims and fulfilling customer expectations. With ambitious growth planned, this is a great addition to your CV and boost to future career prospects.

Tasks

- Working with the IT and Projects teams, carry out research to identify business requirements on new IT projects
- Review and develop documented current business processes for each operating area relating to the projects
- Research and familiarization with process reengineering workshops to identify process and functional gaps, and provide solutions
- Co-ordinate internal process workshops with multiple operational teams
- Support the IT team

Personal Skills

- Studying for a degree in Business and/or Informatics or similar, with an interest in the IT sector
- Effective communicator at all levels
- Able to work on own initiative
- Being self-organised and motivated
- Detail oriented analytical thinker
- Problem solving mindset
- Be passionate about IT as a business enabler

The Host Company

This host company has over 20 years' experience in the education sector offering a huge range of regulated qualifications, apprenticeships and access to Higher Education Diplomas and are able to develop new qualifications and quality assured in-house training. Their mission is to empower learners by providing learning experiences that inspire personal development with learning structures tailored to the individual, their personality, skill set and ability, enabling them to fulfil their ambition. Always looking to improve their offering, they are seeking talented individuals to bring ideas and add value to the business.
