# Ist Palaeontological Virtual Congress

A NEW WAY TO MAKE SCIENCE

---

## PRESENTATION

Dear friends and colleagues,

The emergence of new applications and technologies opens a wide range of possibilities regarding new forms of communication in the scientific world. Aware of this we are glad to present the **Ist Palaeontological Virtual Congress** with the purpose of spreading worldwide the most recent scientific advances in palaeontology in a fast, easy and economical way.

This congress is pioneer in palaeontology, being exclusively developed in a virtual environment. Oral communications and posters about any palaeontological field will be presented through an online platform created ad hoc.

The simplicity of this new format allows for low-cost registration fees and saving travel and maintenance expenses. Consequently, this initiative aims to give international projection to the palaeontological research carried out by groups with limited economic resources and promoting the participation of palaeontologists from developing countries.

Moreover, the Ist Palaeontological Virtual Congress combines the benefits of traditional meetings (i.e., providing a forum for discussion, including guest lectures or the production of an abstract book among other things) with the advantages of online platforms, which allow reaching a higher number of researchers around the world.

Hope to see you in the Net!

The Organising Committee.

## IMPORTANT DATES AND DEADLINES

---

**THE PALAEONTOLOGICAL VIRTUAL CONGRESS WILL TAKE PLACE:  
BETWEEN DECEMBER 1<sup>st</sup> - 15<sup>th</sup> 2018.**

- Deadline for workshops proposals: EXTENDED UNTIL 7<sup>th</sup> August
- Deadline for abstract submission: 20<sup>th</sup> September
- Deadline for regular registration: 16<sup>th</sup> November

## REGISTRATION

---

Registration will be available soon via our website:

<http://palaeovc.uv.es/index.php/registration/>

The completed and signed registration form and a copy of the bank transfer must be sent to [palaeovc@uv.es](mailto:palaeovc@uv.es), indicating in the “concept” box:

**registration\_name\_surname\_palaeovc**

You can register as author (which will grant you access to present two communications as main author) or you can register as attendant (which will grant you access to the presentations, posters and videos). For each communication presented, the registration of at least one of the authors (usually the one who is presenting) is required.

## FEES

---

5 € each participant

The payment for 1st Palaeontological Virtual Congress must be done via bank transfer, using the following data bank:

**IBAN - ES91 0049 1607 62 21 1003 1624**

**SWIFT - BSCHEMMXXX**

Please, it is very important that you send to the Organising Committee the copy of the bank transfer.

## HOW TO PARTICIPATE?

---

### Instructions for authors

Communications and posters about any palaeontological topic will be presented through an online platform: [www.palaeovc.uv.es](http://www.palaeovc.uv.es).

Consequently, any place with good WiFi signal is enough to participate.

As in a traditional congress, participants who wish to present a communication must send an abstract in advance.

## GUIDELINES FOR ABSTRACTS AND COMMUNICATIONS

---

Researchers are invited to provide a brief abstract from now until 20<sup>th</sup> September 2018. Abstract body is limited to 250 words. No references, images, or tables should be included in the abstract.

The abstract must be uploaded as DOC or DOCX file to [palaeovc@uv.es](mailto:palaeovc@uv.es), specifying: **PALAEOVC 2018 abstract First Author's surname**

You can find more details and download the template for the abstract in:

<http://palaeovc.uv.es/index.php/downloads/template-for-abstracts/>

The authors will have three possibilities for presenting their works/:

### **Slides Presentations / Posters / Video Presentations.**

Slides, posters and videos will be displayed directly in the website during the whole timespan of the congress (between December 1<sup>st</sup> and 15<sup>th</sup>). The platform will be accessible 24 hours a day during this time.

Participants will be able to ask questions and make comments about them in different discussion chats.

The platform used for Presentation Slides, Posters and Videos will be Slideshare.

## **SLIDESHARE: How it works?**

---

Any participant that would like to present a communication must have an account in Slideshare/Linkedin.

Next, the authors must upload the Slides/Poster/Video presentation to their profile.

- The maximum number of slides in the presentation is 30.
- Posters should be submitted in PDF format.
- Videos must be in mp4 format. More information about it will be available soon.

Once the slides/poster/video presentation is uploaded, the authors have to send the URL/link or code of the communication to the Organising Committee or to the workshop manager in which the communication will be presented.

The Organisation will upload it to the congress web, so it can be accessed by registered guests only.

You can find more information in the congress web about:

How to create a slideshare account

How to upload a PowerPoint presentation to Slideshare

## **WORKSHOPS**

---

The 1st Palaeontological Virtual Congress will be organized in a number of general theme sessions trying to span the whole variety of potential contributions. However, palaeontology is a wide discipline which encompasses a huge variety of topics. Aware of this and taking advantage of the flexibility that virtual platforms offer, workshop proposals on emerging topics, innovative techniques or any other matter that you consider of interest are welcome to be addressed in depth during the celebration of the congress. The purpose of such workshops is to provide a comprehensive forum for the exchange of ideas and discuss the issue within specialists in the target field.

If you are interested in proposing a specific workshop, please send us a brief description (no more than 300 words) with the main goals and any relevant information that you may consider relevant. Please, indicate in the proposal the full name of the organisers and their respective affiliations.

**Proposals should be submitted by email to [palaeovc@uv.es](mailto:palaeovc@uv.es) before August 7<sup>th</sup>.** Notification of acceptance will be sent to the organizers after that. If your workshop is accepted, the proposed organizers will be in charge of moderating the sessions (discussion chats) and look for contributions (ideally a single workshop would require the participation of at least 10 contributions).

## ABOUT THE LOGO

---

The 1st Palaeontological Virtual Congress logo, made by Hugo Salais (biologist and palaeoillustrator), represents the panarthropod *Anomalocaris* (Cambrian period) surrounded by a globe which shows the position of the landmasses of its time. Because this is a general palaeontological themed congress, we have chosen this animal because it represents the essence of the enigmas that surround life in the distant past. In this sense, *Anomalocaris* is the perfect choice, an almost alien-like organism that lived on a distant past and was the result of one of the major biological diversity explosions in the history of Earth.

We hope you like it.

## WHO IS BEHIND THIS CONGRESS?

---

Departament de Botànica i Geologia

**ICBiBE**

Institut Universitari Cavanilles  
de Biodiversitat i Biologia Evolutiva

Museo Paleontológico de Alpuente

### Chairman

- **Dr. Vicente D. Crespo** (Museu Valencià d'Història Natural, Museo Paleontológico de Alpuente and Departament de Botànica i Geologia, Universitat de València) [Vicente.Crespo@uv.es](mailto:Vicente.Crespo@uv.es)

### Vice-Chairman

- **Dr. Carlos Martínez-Pérez** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València and University of Bristol) [Carlos.Martinez-Perez@uv.es](mailto:Carlos.Martinez-Perez@uv.es)

### Webmaster

- **Esther Manzanares** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València) [Esther.Manzanares@uv.es](mailto:Esther.Manzanares@uv.es)

### Secretary

- **Humberto G. Ferrón** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València) [Humberto.Ferron@uv.es](mailto:Humberto.Ferron@uv.es)

### Organizing committee

- **Fernando Antonio M. Arnal** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València) [fermarar@alumni.uv.es](mailto:fermarar@alumni.uv.es)
- **Arturo Gamonal** (Museo Paleontológico de Alpuente) [argagon@alumni.uv.es](mailto:argagon@alumni.uv.es)
- **José Luis Herráiz** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València) [joheca@alumni.uv.es](mailto:joheca@alumni.uv.es)
- **Rafael Marquina-Blasco** (Department of Botany and Geology and Institut Cavanilles de Biodiversitat i Biologia Evolutiva, Universitat de València) and Museu Valencià d'Història Natural) [Rafael.Marquina@uv.es](mailto:Rafael.Marquina@uv.es),
- **Dr. Maite Suñer** (Museo Paleontológico de Alpuente) [Maite.Sunyer@uv.es](mailto:Maite.Sunyer@uv.es)

Up to now, palaeontologists from different disciplines, as well as several institutions have shown interest and support to this initiative:

- **Dr. Jordi Agustí**, Institut Català de Human Paleoeology and Social Evolution (Tarragona, Spain)
- **Dr. Peter Andrews**, Natural History Museum, Department of Earth Science (London, UK)
- **Dr. Salvador Bailon**, Musée national d'Histoire naturelle, Sorbonne Universités (Paris, France)
- **Dr. Eduardo Barrón**, Instituto Geológico y Minero de España, Geominero Museum (Madrid, Spain)
- **Dr. Michael Benton**, School of Earth Science, University of Bristol (Bristol, UK)
- **Dr. Xavier Delclòs**, Department of Earth and Ocean Dynamics, University of Barcelona (Barcelona, Spain)
- **Dr. Philip C J Donoghue**, School of Earth Science, University of Bristol (Bristol, UK)
- **Dr. Varia Faria dos Santos**, Museu Nacional de História Natural e da Ciência, University of Lisbon, (Lisbon, Portugal)
- **Dr. Yolanda Fernández Jalvo**, Museo Nacional de Ciencias Naturales-CSIC (Spanish National Research Council), Department of Paleobiology (Madrid, Spain)
- **Dr. Ana García-Vázquez**, Institute of Geology “Isidro Parga Pondal”, University of A Coruña (A Coruña, Spain)
- **Dr. Àngel Galobart**, ICP Institut Català de Paleontologia Miquel Crusafont, Mesozoic Research Group (Barcelona, Spain)
- **Dr. Francisco Goin**, CONICET, Division of Vertebrate Paleontology (La Plata, Argentina)
- **Dr. Aurora Grandal-D'Anglade**, Institute of Geology “Isidro Parga Pondal”, University of A Coruña (A Coruña, Spain)
- **Dr. James I. Kirkland**, Utah Geological Survey (Salt Lake City, USA)
- **Dr. Christian Klug**, Institut für Paläontologie und Paläontologisches Museum, University of Zurich (Zurich, Switzerland)
- **Dr. Dores Marin-Monfort**, Museo Nacional de Ciencias Naturales-CSIC (Spanish National Research Council), Department of Paleobiology (Madrid, Spain)
- **Dr. Octávio Mateus**, Department of Earth Science, Universidade Nova de Lisboa (Monte de Caparica, Portugal)
- **Dr. Jorge Morales**, Museo Nacional de Ciencias Naturales-CSIC (Spanish National Research Council), Department of Paleobiology (Madrid, Spain)
- **Dr. Enrique Peñalver**, Instituto Geológico y Minero de España, Geominero Museum (Valencia, Spain)

- **Dr. Paloma Sevilla**, Universidad Complutense de Madrid, Department of Paleontology, Madrid, Spain
- **Dr. César L. Schultz**, Universidad Federal do Rio Grande do Sul (Porto Alegre, Brazil)
- **Dr. Susan Turner**, Queensland Museum, Department of Geoscience (Brisbane, Australia)
- **Dr. Lars van den Hoek Ostende**, Naturalis Biodiversity Center, Department of Geology (Leiden, Netherlands)
- **Dr. Bernat Vila**, ICP Institut Català de Paleontologia Miquel Crusafont (Barcelona, Spain)
- **Dr. Oliver Wings**, Zentralmagazin Naturwissenschaftliche Sammlungen (ZNS) (Halle (Saale), Germany)
