 12:30

 I²SysBio seminar room

2024

MAY

May 6

David Peris Navarro (IATA, Spain). “*Characterization of yeast polyploids and their applications*”.

May 20

Susana Rodríguez-Navarro (IBV, Spain). “From epigenetic regulation to mRNA transport control, examples of factors operate at various layers of the gene expression process”.

May 27 (9:30- 14:00)

I Jornada sobre colaboración público-privada

June

June 3

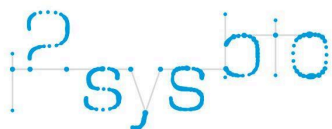

Antonio Fabregat (AstraZeneca, UK). “*How Knowledge Graphs and Generative AI Revolutionise Biopharma and Life Sciences*”. (Remote talk)

June 17

Jaime Huerta-Cepas (CBGP, Spain). “*Functional, evolutionary and ecological significance of the unknown microbial biosphere*”.

I²SysBio

Seminars

INSTITUTE FOR
INTEGRATIVE
SYSTEMS BIOLOGY

 12:30

 I²SysBio seminar room

July

July 1

Miguel Verdú del Campo (CIDE - CSIC). “*Tracking the evolution of ecological interactions through the phylogenies*”.

July 15 (Innovation Monday Series)

Max Torrellas (AIMPLAS)

September

September 9

Alberto Carbonell (IBMCP, Spain). “*Next-Generation Artificial Small RNA-Based RNAi for Crop Improvement*”.

September 23 (Innovation Monday Series)

AINIA (Spain)

October

October 7

Maria Angela Nieto Toledano (Instituto de Neurociencias, CSIC-UMH, Spain).

October 21 (Innovation Monday Series)

Laura García Carmona (ITE, Spain) “*Biosensores portátiles y wearable para monitorización personal, agrícola y ambiental*”.

I²SysBio is a joint research centre Universitat de València/CSIC
