Meet Clara Cuevas!

Me llamo Clara Cuevas, y soy la nueva incorporación al IDOCAL. Me hace una ilusión tremenda comenzar esta aventura como metodóloga y poder compartir conocimientos y experiencias con todos mis compañeros. Me gusta mucho la música y toco la flauta travesera desde los 9 años.

Meet Simone Tavolucci!

Born and raised in Rome, I am pursuing an industrial doctorate in Sapienza University in partnership with the consulting firm of EY.

Since my dissertation I have dealt mainly with topics related to self-regulation processes with a particular focus on the modulation of negative emotions.

I thank the University of Valencia and specifically Professor González-Romá for allowing me to do this month-long exchange here in Valencia, where I will be able to sharpen my knowledge and skills.

I am a football fan so I will not miss the chance to see a match at the stadium here as well, besides visiting this beautiful city and enjoying the delicious dishes of the Spanish cuisine.
