

Dr. **Mariam Camarero** is a full professor of Economics at the University Jaume I (Castellón, Spain) and holds an Ad Personam Jean Monnet Chair in European Economic Integration. An expert in time series econometrics and international economics, she is currently the academic director of INTECO, a joint research unit of the University of Valencia and University Jaume I on Economic Integration. She has published more than 50 articles in refereed academic journals with impact and led or participated in many research projects. Her research lines are currently external imbalances, fiscal and external sustainability, FDI determinants, and economic convergence, among others. She is a regular evaluator for scientific journals as well as for research agencies, both national and international, including the European Commission.
