Dr. **Annarita COLASANTE** is an assistant Professor at the Universitat Jaume I (Castellón, Spain).

She got a Master Degree in Economics in 2010 and a PhD degree in 2014 at the Università Politecnica delle Marche (Italy).

Her main research interest is in both experimental and computational Economics. She is involved in many national and European projects with the main aim of studying individual expectations through laboratory experiments. Besides the macro research field of studying expectations, she is involved in the experimental investigation of individual behavior in a public good game framework.

Annarita COLASANTE has published numerous scientific papers in peer-reviewed international journals such as the Journal of Economic Interaction and Coordination and the Journal of International Forecasting, among others.

Five selected/recent publications:

1. Colasante A., Garcia Gallego A., Georgantzis N., Morone A., Temerario T (2019) "Intragroup competition in public good games: The role of relative performance incentives and risk attitudes" Journal of Public Economic Theory 21(5), 847-865
2. Colasante A., Alfarano A., Camacho E (2019) "The term structure of cross-sectional dispersion of expectations in a Learning-to-Forecast Experiment" Journal of Economic Interaction and Coordination 14 (3), 491-520
3. Colasante A., Alfarano A., Camacho E., Gallegati M. (2018) "Long-run expectations in a Learning-to-Forecast Experiment: A Simulation Approach." Journal of Evolutionary Economics
4. Colasante A., Palestrini A., Russo A., Gallegati M. (2017) "Adaptive expectations versus Rational expectations: Evidence from the lab" Journal of International Forecasting 33(4), 988-1006
