

---

Adrià Martínez Aviñó studied Chemistry at the University of Valencia. He finished his degree in 2017, and a year later, in 2018, he obtained his Master's Degree in Forensic Chemistry in Universitat Rovira i Virgili. The same year he joined MINTOTA research group and he started his PhD studies in Chemistry with mention to Excellency in the Department of Analytical Chemistry.

He did his research project for his Master's Degree in the University of Lincoln funded by the European Union with an Erasmus + 2018 scholarship.

In 2019 he was contracted in the project: *Concept assay based on the developing of a prototype (SMART-SENS-H2S) and the validation studies and transference to real scale. CPI-18-376.*

His investigation is focused on developing passive sensors for *in situ* determination of compounds of interest.
