

Creative report of the 9th Subfossil Cladocera Workshop

The meeting has not yet gone
And we already feel Alone
We will miss you all
Until our next recall

Maria Rosa and Eduardo
Were perfect organizers
Of this special event
That made us content

Content and satisfied
With the remains identified
And curiosities and doubts
To work further, for getting results.

Krystyna and Kaarina
Lead the team:
To them it goes our love and esteem.
They gave us a present that will last for ever
A book of passion and knowledge fever.

We had presentations and discussions
Slides' and photos' exhibitions
From Worldwide Northern and Southern sides
Investigated and yet undescribed

A mystery session on "Sex and stress"
With special greetings from Liisa's address

Science and History were linked together
And were accompanied by a beautiful weather
By guided tours to discover Valencia,
Its love for knowledge and for *Sapientia*

Classic music was a good friend
Of our meeting, now going to end;
So is the rhyme we wrote for you
-Friends and colleagues-
To say our best: "Thank you".

Valencia, September 27th, 2007
