Welcome from the Chancellor

The long, rich history of the University of Valencia founded in 1499 offers Valencian society a cultural heritage which needs to be preserved and disseminated. Today, the University of Valencia is an extraordinarily rich and complex organisation boasting a wide range of undergraduate, postgraduate, and doctoral programmes, research networks; different bodies and links with society.

Its resources include libraries with more than a million and a half copies and computer and communication resources offering teaching support and research support to more than forty-five thousand students, and five thousand staff members ranging from professors, lecturers, technical staff, administration and service personnel.

The University is synonymous with culture and therefore goes beyond studies and research to offer facilities that favour the development of university life: residence halls, sports facilities, associative and voluntary networks, and exceptional places like the Botanic Garden and the historical building at la Nau Street.

The University of Valencia is at a crossroads of knowledge, a stimulating place to learn, a bridge for the future that, through its strategic plan, is on the path of becoming one of the state-of-the-art European universities.

Francisco Tomás
Chancellor (Rector)

UNIVERSITAT DE VALENCIA

Five centuries of
knowledge

MORE THAN FIVE CENTURIES OF KNOWLEDGE

At the beginning of the fifteenth century, the Juries of Valencia compiled studies which were dependent on the city and the church, but they separated again in the year 1416. The foundation of the University of Valencia had to wait until 30th April 1499 when the Constitutions were published, written at the request of the council of Valencia. The bull of Pope Alexander VI in 1501, together with the royal privilege Fernando II a year later, led to the official opening of the General Study of Valencia on 13th October 1502, thus reaching university status and equivalence to the universities of Rome, Bologna, Salamanca and Lleida, as stated in different prerogatives and distinctions.

Initially dedicated to the studies of medicine, humanities, theology and law, it has now become a modern European university, open to almost all disciplines in humanities, basic and technical sciences, health sciences, social sciences, and education, as well as research and culture.

ORGANISATIONAL STRUCTURE

The University is structured according to legislation and its own statutes within a framework of democratic, participatory bodies.

- The University Council is the highest representative body, made up of 300 representatives including professors, lecturers and researchers, administration and service personnel and students. It is presided by the Chancellor.
- The Governing Board is made up of approximately fifty people including the chancellor, general secretary, manager, vice-chancellors, student delegate, deans, centre directors, representatives of the University Council and Board of Trustees, administration and service personnel and students.
- The Chancellor holds the maximum authority at the university and is democratically elected by the university community every four years. He is assisted by a Board of Management made up of the general secretary, manager, vice-chancellors and student delegate.
- The Board of Trustees enables society to be represented at the University. It is made up of members of the Public Administration and representatives of business and union sectors, as well as members of the university community.
- The Faculties, Engineering Schools, University Schools and University Colleges are responsible for the academic degrees and the dissemination of culture.
- The Research Institutes are fundamentally aimed at scientific and technical research and artistic development. They can also carry out teaching activities involving specialised teaching or doctoral classes and technical consulting in their field of expertise.
- The Departments are university entities responsible for organising and developing research, teaching and other university activities with regard to a discipline or group of disciplines.

五个世纪的知识积累

15世纪初，巴伦西亚市政委员会设立机构，专门对城市和教会相关问题进行研究，但是该机构于1614年被解散。巴伦西亚大学的建立因此遭到推迟。1499年4月30日巴伦西亚城市会议颁布宪章。在1501年教皇阿雷汉德罗六世颁布的圣谕和1502年国王费尔南多二世共同推动下，巴伦西亚总学府（Estudio General de València）终于于1502年10月13日成立，与此同时建立的还有罗马大学、波兰大学、萨拉曼卡大学和耶以达大学。

大学建立之初主要是进行医学、人文学、神学和法学领域的研究。今天的巴伦西亚大学作为欧洲现代化大学，其研究范围涉及几乎所有知识领域，如：人文学科、基础科学和技术、健康、社会科学、教育、科学研究和文化等。

组织结构

根据相关法规和本大学校规，巴伦西亚大学有以下民主机构和组织共同构成：

- 校务委员会作为最高权力代表机构由教师、管理人员、服务人员和学生代表共约300人组成，校长是校务委员会的最高代表。
- 理事会由校长、总秘书处、财务管理处、副校长（多名）、学生会、院、系、中心主管、校务委员会代表、社会理事会代表、各系和教研室、学院、教师代表、管理人员、服务人员和学生代表等50人左右组成。
- 校长是大学的最高代表，由大学每四年通过民主选举产生。选举活动由总秘书处、财务管理处、副校长和学生会共同组成的委员会组织进行。
- 社会理事会是社会在大学的代表机构。由公共管理处、企业协会和工会代表共同组成，是巴伦西亚大学面向社会的代表机构。
- 各系、高等技术学校、大学专科学校、学院等单位承担学位的授予和文化传播工作。
- 各研究院主要从事科学、技术的研究和艺术创作，以及承担专业教学工作、博士课程的设置和对相应领域进行技术指导。
- 各教研室主要负责组织和推动科研活动的进行，承担教学工作和组织其他涉及一个或多个知识领域的大学活动。

Today it ranks second in the Spanish university system with complutense and Autonomous University of Madrid according to the Shanghai Jiao tong University ranking.

根据上海交通大学提供的大学排名数据，在西班牙大学目前排名中，巴伦西亚大学仅次于马德里康普敦斯大学和马德里自治大学，位居第二。
