

Project Number: 257401

A highly integrated and sensitive POrous Sillicon based lab on a chip for multiple quantitaTIVE monitoring of food allergies at point of care.

Specific Targeted Research Project

Information Society Technologies

Deliverable D11.1: Creation of a comprehensive dedicated project website, to be updated on a regular basis.

Due date of deliverable: **November 30 2010**

Actual submission date: **November 30 2010**

Start date of project: 2010-09-01

Duration: 3 Years

Organisation name of lead contractor for this deliverable: **KTH**

Revision **[1.0]**

Project co-funded by the European Commission within the Seventh Framework Programme		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

1 About this deliverable

1.1 Introduction

This report covers the setup of a project website where anyone can retrieve information on the project and contact details of the project manager are placed for request of further information. A link also exists to a private area for the consortium where they can download all of the documents that pertain to the project.

1.2 Scope of the deliverable

The deliverable really just provides information on how to reach the Positive webpage and overviews what can be found there.

1.3 Structure of this deliverable

The report is laid out according to the tasks defined in WP11 as follows:

T11.1: Creation and maintenance of a comprehensive dedicated project website (KTH)

2 Description of work performed

2.1 T11.1: Creation and maintenance of a comprehensive dedicated project website (KTH)

The task involves the creation and maintenance of a comprehensive dedicated project website, which will be updated on a regular basis. The website will target all audiences (general audience, scientific community, industry) and allow for the registration of newcomers, to be included in the Consortium database of contacts. A specific section on Innovation and Technology transfer will be created for industry.

Currently the webpages are located at:

<http://www.ee.kth.se/positive/>

It is hoped to make a symbolic link at <http://www.positive.eu> which has already been registered by a third party.

3 Conclusions

A website has been created and maintained for disseminating the project as well as providing data transfer for project partners.

4 Near future planning/Future work/

The webpage will be updated periodically as deliverables, reports and dissemination material and information become available. A facility for the registration of newcomers, to be included in the Consortium database of contacts will also be added. A specific section on Innovation and Technology transfer will be created for industry.
