SUMMARY

The Final Degree Project (hereinafter, TFG) is a compulsory subject of 12 credits of the degree in Environmental Sciences by the University of Valencia. In the TFG converges all the student's learning during their studies and represents the culmination of their ability to work as a student. The fundamental objective is that with the TFG the student experiences for himself the difficulties of practical work, facing the real limitations of the research and technical process, the production of results and their adequate communication.

PREVIOUS KNOWLEDGE**RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE**

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

In order to enrol, it is an essential requirement to have taken or be taking all the compulsory subjects of the degree, and to have passed at least 150 credits. In the case of opting for the TFG modality linked to external internships, it will be necessary to be enrolled in them.

COMPETENCES / LEARNING OUTCOMES

-

Apreciación del rigor, el trabajo metódico, y la solidez de los resultados.

Aprendizaje autónomo y en nuevas situaciones.

Be able to use new information and communication technologies.

Capacidad de divulgación del conocimiento científico.

Capacidad de organización, planificación y gestión de la información.

Capacidad de resolución de problemas y toma de decisiones.

Competencia en el uso del lenguaje científico oral y escrito, incluyendo el uso de la lengua inglesa.

Competencia en el uso de programas informáticos actualizados.

Conocimiento de sistemas de gestión en tareas profesionales en ciencias ambientales.

Habilidad para el trabajo en equipo y en contextos multidisciplinares.

Have capacity for analysis and synthesis and for critical reasoning.

Have problem-solving skills, be able to apply knowledge to practice and show motivation for quality.

Potenciación de la capacidad de liderazgo.

Potenciar la creatividad, iniciativa y espíritu emprendedor.

Redactar y ejecutar proyectos en relacionados con las ciencias ambientales.

Reflexión ética sobre la actividad profesional.

Saber analizar datos utilizando herramientas estadísticas apropiadas.

Saber diseñar experimentos y desarrollarlos mediante el uso de técnicas e instrumentales científicos adecuados.

DESCRIPTION OF CONTENTS

1.

Consult the Instructions of the TFG in Environmental Sciences that are updated every year and published on the website of the Faculty of Biological Sciences. These instructions are reviewed and approved annually by the Academic Committee of the Degree in Environmental Sciences.

**WORKLOAD****PRESENCIAL ACTIVITIES**

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the bachelor's thesis	0,00
Presentation and defence of the bachelor's thesis	0,00
Total hours	0,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Independent preparation of the bachelor's thesis	0,00
Preparation of the bachelor's thesis project	0,00
Total hours	0,00

TEACHING METHODOLOGY

Consult the Instructions of the TFG in Environmental Sciences that are updated every year and published on the website of the Faculty of Biological Sciences.

EVALUATION

Consult the Instructions of the TFG in Environmental Sciences that are updated every year and published on the website of the Faculty of Biological Sciences. These instructions are reviewed and approved annually by the Academic Committee of the Degree in Environmental Sciences.
