

COURSE DATA

DATA SUBJECT

Code: 33495
Name: Models applied to social work
Cycle: Undergraduate Studies
ECTS Credits: 6
Academic year: 2025-26

STUDY (S)

Degree	Center	Acad. year	Period
1311 - Degree in Social Work	Facultat de Ciències Socials	2	Second quarter

SUBJECT-MATTER

Degree	Subject-matter	Character
1311 - Degree in Social Work	Methods, models and techniques of social work	COMPULSORY

COORDINATION

ROYO RUIZ ISABEL

SUMMARY

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

COMPETENCES / LEARNING OUTCOMES

-

Act with autonomy in learning, making informed decisions in different contexts, issuing judgements based on experimentation and analysis, and transferring knowledge to new situations.

Apply social work methods and models in the interaction with individuals, families, groups, organisations and communities, promoting development and improvement in living conditions, and monitoring and

evaluating changes aimed at achieving autonomy and co

Apply strategies for the identification, intervention and assessment in social work in the face of behaviours, contexts and circumstances that create risk situations for individuals, groups and communities.

Collaborate effectively in work teams, assuming responsibilities and leadership roles and contributing to collective improvement and development.

Contribute to the design, development and implementation of solutions that respond to social demands, taking into account the Sustainable Development Goals as a reference.

Contribute to the development of support networks that individuals can access to meet their needs and strengthen planned outcomes.

Contribute to the promotion of growth, development and autonomy of individuals, strengthening interpersonal and group relationship skills based on methodologies linked to social work.

Demonstrate critical and self-critical thinking in the field of the degree programme, considering aspects such as professional ethics, moral values and the social implications of the different activities carried out.

Demonstrate professional competence in the practice of social work.

Formulate the design, development and evaluation of intervention plans with individuals and professionals by coordinating the provision of services to be employed and reviewing the effectiveness of intervention plans with the individuals involved in order

Interpret the information provided by professional practice as a support for reviewing and improving intervention strategies in emerging social situations.

Know how to communicate effectively, both orally and in writing, adapting to the characteristics of the situation and the audience.

Know methods and models of social work for intervention with individuals, families, groups, organisations and communities according to their needs and circumstances.

Learn about the design, implementation and evaluation of social intervention projects.

Propose creative and innovative solutions to complex situations or problems within the field of knowledge, to respond to diverse professional and social needs.

Resolve crisis situations by assessing their urgency, planning and developing actions to deal with them and reviewing their results.

Select information ethically and effectively in independent learning, contributing to the production of new disciplinary knowledge and its professional application.

Use mediation as an intervention strategy aimed at alternative dispute resolution, in circumstances where this is required.

Validate current knowledge of best practices in social work for the review, analysis and updating of one's own frameworks.

DESCRIPTION OF CONTENTS
