SUMMARY

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

COMPETENCES / LEARNING OUTCOMES

-

Apply strategies for the identification, intervention and assessment in social work in the face of behaviours, contexts and circumstances that create risk situations for individuals, groups and communities.

Assess needs and possible options to guide an intervention strategy from a social work perspective.

Demonstrate critical and self-critical thinking in the field of the degree programme, considering aspects

such as professional ethics, moral values and the social implications of the different activities carried out.

Demonstrate professional competence in the practice of social work.

Establish professional relationships in order to identify the most appropriate form of intervention.

Identify the disciplinary knowledge necessary for the analysis of contemporary society, its structure and dynamics, including the complexity of social phenomena, adopting a multidisciplinary perspective.

Know methods and models of social work for intervention with individuals, families, groups, organisations and communities according to their needs and circumstances.

Learn about the design, implementation and evaluation of social intervention projects.

Resolve crisis situations by assessing their urgency, planning and developing actions to deal with them and reviewing their results.
