SUMMARY**PREVIOUS KNOWLEDGE****RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE**

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS**COMPETENCES / LEARNING OUTCOMES****1311 - Degree in Social Work**

Apply intervention strategies in social work with individuals, families, groups, organisations and communities to assist them in making informed decisions about their needs, circumstances, risks, preferred options and resources.

Apply social work methods and models in the interaction with individuals, families, groups, organisations

and communities, promoting development and improvement in living conditions, and monitoring and evaluating changes aimed at achieving autonomy and co

Apply social work techniques to work effectively within systems, networks and interdisciplinary and multi-organisational teams.

Apply strategies for the identification, intervention and assessment in social work in the face of behaviours, contexts and circumstances that create risk situations for individuals, groups and communities.

Apply the attitudes and skills necessary to integrate a gender perspective into professional practice.

Assess needs and possible options to guide an intervention strategy from a social work perspective.

Collaborate effectively in work teams, assuming responsibilities and leadership roles and contributing to collective improvement and development.

Contribute to the development of support networks that individuals can access to meet their needs and strengthen planned outcomes.

Contribute to the management and direction of welfare entities.

Contribute to the preparation of meetings and participate in decision-making in order to better defend the interests of individuals, families, groups, organisations and communities.

Contribute to the promotion of growth, development and autonomy of individuals, strengthening interpersonal and group relationship skills based on methodologies linked to social work.

Define proposals for resolution in situations of risk after identifying and assessing the nature of the risk.

Demonstrate professional competence in the practice of social work.

Develop actions related to the management of resources and services, supervising their effectiveness and ensuring their quality.

Establish professional relationships in order to identify the most appropriate form of intervention.

Formulate the design, development and evaluation of intervention plans with individuals and professionals by coordinating the provision of services to be employed and reviewing the effectiveness of intervention plans with the individuals involved in order

Generate social histories and reports, ensuring they are comprehensive, reliable, accessible and up to date, to assist in decision-making and professional assessments.

Identify intervention methodologies in social work for interaction, support and resolution of needs and problem situations with individuals, families, groups and communities.

Identify risk situations inherent to professional practice through the planning, review and monitoring of actions aimed at addressing them.

Interpret the information provided by professional practice as a support for reviewing and improving intervention strategies in emerging social situations.

Know how to communicate effectively, both orally and in writing, adapting to the characteristics of the situation and the audience.

Know methods and models of social work for intervention with individuals, families, groups, organisations and communities according to their needs and circumstances.

Learn about the design, implementation and evaluation of social intervention projects.

Manage one's own work responsibly by assigning priorities, meeting professional obligations and assessing the effectiveness of one's own work programme.

Reinforce the capacities of individuals, families, groups and communities so that they may act as agents of transformation in the situations in which they live.

Resolve crisis situations by assessing their urgency, planning and developing actions to deal with them and reviewing their results.

Select information ethically and effectively in independent learning, contributing to the production of new disciplinary knowledge and its professional application.

Understand the systems, organisational contexts and work teams linked to social work.

Use mediation as an intervention strategy aimed at alternative dispute resolution, in circumstances where this is required.

Validate current knowledge of best practices in social work for the review, analysis and updating of one's own frameworks.

DESCRIPTION OF CONTENTS
