SUMMARY

The Final Degree Project (TFG) consists of the autonomous development by the student of a project, under the direction of a tutor professor, which may contain an experimental part if the proposed topic so requires. The purpose of carrying out the TFG is for the student to be able to integrate the teachings received during the studies and ensure the acquisition of the skills of the degree.

The selection of the topics by the students will be made according to the average grade of the file in base 10. In the event of a tie, the student with the greatest number of credits passed will choose.

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

To be able to enroll in the TFG, the student of the Degree in Human Nutrition and Dietetics must have completed at least 160 ECTS credits, between basic and mandatory; while students of the Double Degree in Pharmacy and Human Nutrition and Dietetics must have passed at least 300 ECTS credits, between basic and mandatory.

For the presentation of the TFG it will be required as appropriate, at least 198 credits of the subjects, both obligatory and optional, that make up the program of studies of the Degree in Human Nutrition and Dietetics or to have passed at least 343 credits of the subjects that integrate the Double Degree Program in Pharmacy and Human Nutrition and Dietetics.

COMPETENCES / LEARNING OUTCOMES

1205 - Degree in Human Nutrition and Dietetics

Acquire the capacity to convey ideas, to analyse problems critically and to propose solutions.

Be able to apply the knowledge gained throughout the course of study to the professional world.

Capacidad para la toma de decisiones.

Desarrollar habilidades de comunicación en las relaciones interpersonales y capacidad de trabajo en equipo.

Destreza en la presentación de un trabajo oral o escrito.

Develop organisational and planning skills.

Saber interpretar, valorar y comunicar datos relevantes en las distintas vertientes de la actividad de dietista-nutricionista, haciendo uso de las tecnologías de la información y la comunicación.

Saber presentar y defender ante un Tribunal universitario un proyecto fin de grado, consistente en un ejercicio de integración de los contenidos formativos recibidos y las competencias adquiridas.

DESCRIPTION OF CONTENTS

The content of the TFG will be included within the following types:

- Experimental work related to the degree, which may be developed in the Departments, Laboratories, Research centers and the like.
- Review and bibliographic research work focused on different topics related to the degree.
- Coordinated work with the external internships of the degree, as long as its development is

carried out in different time slots.

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the bachelor's thesis	10,00
Presentation and defence of the bachelor's thesis	25,00
Total hours	**35,00**

NON PRESENCIAL ACTIVITIES

Activity	Hours
Independent preparation of the bachelor's thesis	265,00
Preparation of the bachelor's thesis project	0,00
Total hours	**265,00**

TEACHING METHODOLOGY

The TFG will have to be elaborated individually by each student. The student will have individual tutorials. Through them, the tutor/tutors will guide the selection and focus of the work topic, handle the bibliography, work methods more useful for the realization of the project and resolve the doubts raised by the students and will follow up on their activity. The ownership of the intellectual property rights of the TFGs correspond to the student who has completed it and to the tutor, in co-authorship, according to the provisions of the intellectual property law of 1996 with modifications of 2003, in their articles 7 and 8.

The TFG to present for each student will be adjusted to the "Rules of writing and presentation of the TFG". In case the TFG involves the collection and processing of data of a personal nature, it will be necessary to abide by the stipulation in the " Protocol per al compliment de la normativa de protecció de dades en la realització de Pràctiques Externes i Treballs Fi d'Estudis¿

All two documents are available on the website <https://www.uv.es/uvweb/grado-nutricion-humana-dietetica/es/se-estudia/trabajo-final-grado/trabajo-fin-grado-nhd-1285933578470.html>.

The use of artificial intelligence (AI) tools in the Bachelor's Degree Final Project (Bachelor's Thesis) shall be governed by the provisions of the "Guidelines for the Responsible Use of Artificial Intelligence in Teaching and Assessment Activities at the University of Valencia" < https://www.uv.es/graus/normatives/Guia_actuacio_IA_UV.pdf >. In particular, AI tools may only be used as a support tool and never as a substitute for the student's authorship of the work. Where applicable, students must also submit the AI use declaration included in the appendix to these Guidelines.

The TFG is scheduled to address the objectives of Sustainable Development (SDG) most related to each theme.

EVALUATION

Students will have to express their interest in participating in any of the calls offered in the academic year, at least ten calendar days before the date on which the Evaluation Commission convenes, depositing through the electronic headquarters of the University (ENTREU) a pdf file with the complete content of the TFG.

The defense of the TFG will be carried out by the students and will be public. The student body will have a maximum of 15 minutes to present their work and the Commission will debate with him/her for a maximum of 15 minutes regarding the work.

The qualification will be the result of the evaluation of the Commission (70%) and the report of the tutor (30%).

The Commission and the tutor may use evaluation rubrics for the evaluation of the works and their defenses. The evaluation rubrics of both the Commission and the tutor's report can be consulted on the website of the Degree in the TFG section < https://www.uv.es/uvweb/grado-nutricion-humana-dietetica/es/se-estudia /final-grade-work/final-grade-work-nhd-1285933578470.html>.

The evaluation of the Commission will take into consideration: the scientific quality, the expository clarity (both written and oral) and the capacity for debate and defense of the memory. In the event that the final grade is less than 5, the Committee will issue a brief report explaining the causes that the student can improve the quality of the work submitted if it is submitted to future evaluations.

The follow-up of the TFG will be carried out according to the deliverables indicated by the tutor. The student will present their work for monitoring by the tutor in face-to-face and non-face-to-face sessions. The qualification included in the tutor's report will be awarded based on the student's compliance in attending the tutorials and the presentation of the deliverables during the TFG preparation period, as well as their involvement and effort during the completion of the work. .

The digitally signed tutor's evaluation document must be sent to the Center's Secretariat (maria.m. gonzalez@uv.es) prior to defending the work.

VERY IMPORTANT:

Evidence of copying or plagiarism in any of the assessable tasks will result in failure to pass the subject and in appropriate disciplinary action being taken. Please note that, in accordance with article 13. d) of the Statute of the University Student (RD 1791/2010, of 30 December), it is the duty of students to refrain from using or participating in dishonest means in assessment tests, assignments or university official documents.

In the event of fraudulent practices, the Action Protocol for fraudulent practices at the University of Valencia will be applied (ACGUV 123/2020):

https://www.uv.es/sgeneral/Protocols/C83sp.pdf
