Ser capaz de apreciar la complejidad y diversidad del fenómeno criminal.

DESCRIPTION OF CONTENTS

1. Basic Toxicology

Basic Toxicology: Concepts and definitions. Process of toxics in the organism. Toxic effects of physical, chemical and biological agents.

2. Analytical Toxicology

Analytical Toxicology: Samples for analysis. Phases of toxicological analysis. Identifying toxic agents. Interpretation of analytical results.

3. Psychopharmacology

History of Psicopharmacology and fundamental concepts.

Neurobiology of mental disorders.

Mood disorders: antidepressants and stabilizers.

Anxiety Disorders: Anxiolytic and hypnotic.

Schizophrenia: antipsychotic.

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Theoretical and practical classes	45,00
Total hours	45,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at other activities	3,50
Individual or group project	21,00
Independent study and work	16,00
Preparation of lessons	7,00
Preparation for assessment activities	10,00
Resolution of case studies	10,00
Total hours	67,50

TEACHING METHODOLOGY

Lectures with resolution of questions. Cooperative learning. Using ICTs. Approach and resolution of practical cases.

Preparation and presentation of group work. Specialized seminars. And practical tasks. Visits to institutions.

Comprehensive reading of texts and materials. Ongoing of course and resolution of practical clinical cases.

Expression oral/written of knowledge.

EVALUATION

The evaluation of the course is determined with reference to the following criteria and percentages:

- 1) Evaluating the tasks and activities carried out: 40%.
- 2) Final evaluation: 60%.
