EVALUATION

Composition of the final grade:

- 30 % CONTINUOUS EVALUATION
- 70 % EVALUATION OF THEORETICAL AND PRACTICAL KNOWLEDGE

Computable activities for the continuous evaluation. - In the CONTINUOUS EVALUATION the follow-up and the preparation of the content of the programme will be assessed. There will be AT LEAST TWO TASKS that will be assessed. They will consist mainly in the resolution of cases, an objective test, individual work or in group, etc.

In any case, professors can carry out additional activities for continuous evaluation that will be documented in the corresponding Annex to the Course Guide.

The continuous evaluation means assistance and participation. Those students that by diverse reasons cannot attend the lessons do not have right to a different continuous evaluation.

Punctuation of the continuous evaluation. ¿ No marks will be awarded in the continuous evaluation if the student does not get AT LEAST 40% in this modality. In consequence, students who don't get at least 40% will have a final score of zero points in the continuous evaluation. The objective is to promote the continuous work.

The continuous evaluation will compute both in first and second calls.

Continuous assessment activities are considered "not recoverable" in the second exam session in accordance with the provisions of Article 6.5 of the Regulations for Evaluation and Grading of Bachelor's and Master's Degrees at the University of Valencia.

Modality of the final test. - The modality of the FINAL TEST of knowledge (test, short questions or questions to be developed, both theoretical and theoretical-practical, oral examination, etc.) will be decided by each professor and will be communicated to the students in advance.

Regardless of the general evaluation system established for all students (written or oral exam), the faculty responsible for the course may determine in the annex to the teaching guide the possibility of changing the format of the final exam when they are required to conduct the test on a date different from the official one, in accordance with the rules provided for cases of exam scheduling conflicts in the Regulation of Evaluation and Qualification of Bachelor's and Master's Degrees at the University of Valencia or any other legally established cause (e.g., justified force majeure cases). In these cases, the new exam format must maintain the same level of rigor and difficulty as the one generally applied to the rest of the group.

Need to pass the Final Test.- To pass the subject it is **COMPULSORY** to **PASS THE FINAL TEST**.

Students who have participated in any continuous assessment activity and have been evaluated in it, but do not attend the final exam in the respective sittings (both in the first and second sittings), will receive a "NO PRESENTED" grade in the records of the corresponding exam sessions for the course.

Qualification in case of having no marks in the continuous evaluation. - Those students that do not participate regularly in the activities of the continuous evaluation will be assessed according to the result of the final exam, which is open to all the students. In such case, the maximum score they can get is 7 out of 10.

Qualification in case of automatic cause of fail. - According to the criteria of this Course Guide or of the Annex of each professor, the maximum mark will be 4 points.
