**SUMMARY**

*English Language VII* is a compulsory fourth-year (first semester) subject that is part of the module *English Language and Linguistics* and the sub-module *English Language* in the English Studies degree programme of the Universitat de València (approved in 2010). This subject is related to the series *English Language I-VIII* in the aforementioned module and also to other subjects in the *English Linguistics* sub-module such as *English Phonology*, *History of the English Language*, *English Morphology and Lexis*, *English Syntax* and *Second Language Acquisition*.

The aim of the course is to develop communicative skills in English (reading comprehension and written expression) up to Level C2 in multiple contexts. Furthermore, a second objective is to help students become acquainted with some of the main factors related to research in English Linguistics. We will provide students with reading materials, some practical examples, and activities to aid them in the different phases of their end-of-degree dissertation, such as finding a topic to study, doing the actual research, writing it up and presenting it.

At the same time, the course aims to promote autonomous learning, self-assessment, and remedial work with the lecturer.

### TEACHING METHODOLOGY

For students to reach the required level of English (see competence 14) and develop other competences which are also specified in this syllabus the following methodological approaches will be implemented:

- the teacher will formally present key concepts and also counsel, facilitate, organize, monitor, liaise, correct and assess students.
- the teacher will promote student-centred activities through some or all of the following: individual work, pair work, group work, problem solving, project work, and task-based learning.

Autonomous and/or group learning inside and outside the classroom, including computer-based activities will be encouraged.

Your teacher will give you information on requisites relating to attendance at the beginning of the course.

### EVALUATION

Assessment breakdown for first and second calls.

A) Individual final examination that includes a reading test, a use of English test, and a written expression test: 80%

B) Activities carried out during the course: 20%

Total: 100%

To pass the subject students need to get at least 50% as an average of both part A and B. Students must also get 50% in each section of part A. The mark for the 20% of part B will be carried over to the second call. These activities (part B) can only be done during the course and cannot be handed in for the second call. The mark for these activities (part B) is only counted if the student passes part A.

If a student fails one section of the examination (part A) in the the first call, he/she would need to take all the parts again.

#### Assessment Criteria

Students will need to show that they have grasped the concepts introduced by their lecturer(s). They will also have to demonstrate that they have learnt the lexical, grammatical and functional items to be used in the multiple contexts seen in class.

Students will also need to show that they have attained a C2 competence level in C14 and that they have acquired a satisfactory level in the other specific competences described in the learning outcomes (section 5) and in the course contents (section 6).

Plagiarism will not be tolerated; it is a serious academic offence. Any student who is found to have plagiarised will fail the whole subject.
