TEACHING METHODOLOGY

The methodology will consist, on the one hand, in the exhibition by the professor of the essential contents of the subject, treating nevertheless to achieve the greater possible participation of the students and, by

another, of practical sessions where the students , will make, working in team, diverse works and will resolve cases on quality management and the environment management. In the measure of the possible, will take place talks and conferences with expositores external to the university.

EVALUATION

The evaluation consists of two blocks :

BLOCK A , consistent in the continuous evaluation during the course of the work of the students , as well as their implication and participation in the development of the subject.

BLOCK B, consistent in an examination on the knowledges acquired during the course.

The block A supposes 40% of the qualification, and the block B 60%, having to surpass both parts to be evaluated on a positive form. 1 point out of the 4 in Bloc A is conditional on regular attendance at classes (al least 80%), participation in them and volunteer work that arises. The other 3 points will depend on mandatory compositions.

In the second call, students who have not passed Block A, may tale a compensatory complementary exam with a maximun score of 3 points.
