SUMMARY

In the degree in Economics the final degree work (TFG) is the last job that the student must complete to obtain the Degree in Economics.

The TFG will allow the student to obtain the degree so that he or she must relate both the theoretical and practical knowledge acquired in the Degree in Economics. In short, it is about demonstrating that the student has acquired the necessary and sufficient skills and abilities to face the challenge of being a professional expert in Economics.

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

In order to enroll in the TFG, the student must meet some requirements that can be

consult at

COMPETENCES / LEARNING OUTCOMES

1316 - Degree in Economics

Apply the principles of economic analysis (rational decision) to the diagnosis and resolution of problems.

Be able to collect and analyse information.

Be able to design and manage economic projects.

Be able to learn autonomously.

Be able to prepare and defend an economic report.

Be able to use English in a professional environment.

Be able to use ICTs.

Be able to work in a team (including interdisciplinary teams).

Have decision-making skills and be able to apply knowledge to practice.

Have oral and written communication skills in the native language.

Show critical thinking skills.

Show ethical commitment and social responsibility at work, respect the environment and human rights and promote equality between men and women and the culture of peace.

Understand and apply the scientific method, which involves formulating hypotheses, deducing verifiable

results and contrasting them with empirical and experimental evidence.

DESCRIPTION OF CONTENTS

The objective of the Final Project is to apply the knowledge, skills, and competencies acquired by the student during the Bachelor's degree through the development and defense of a project in the field of Economics.

In the project, the student must identify a relevant economic problem, pose one or more questions, address it with appropriate information and methodology, and formulate relevant conclusions or recommendations. Alternatively, the student may complete a Final Project linked to the Internship.

1. General issues

The TFG will be composed of three parts:

1.- The project

2.- Personal assessment of the Degree.

3.- Curriculum Vitae.

2. The Project. Personal Assessment of the Degree. Curriculum Vitae

For a description of the contents of the project, see the Final Degree Project Teaching Guide of the Faculty of Economics: https://www.uv.es/uvweb/economia/es/estudios-grado/trabajo-fin-grado/trabajo-fin-grado-1286012475274.html

Regarding the project, the following general structure is proposed for the preparation of the Final Degree Project. The Introduction should present the justification of the topic, the current status of the object of analysis, the objectives of the Final Degree Project, and the hypothesis to be investigated. The main body of the project should review the academic literature to establish a theoretical framework. The materials used should be explained: data, surveys, and general sources. The analytical tools used that are relevant to the study should be described. Depending on the objective, the methodology to be followed is presented. The Results should be presented, which can be supported by graphs and tables. The Conclusions should be presented as a summary of the Final Degree Project. Finally, the Bibliography section should provide an overview of the existing literature on the topic covered.

Personal assessment of the degree
The student must make an assessment of the Degree: what it has meant for him/her at a formative level, the aspects that could be improved and the positive aspects. This evaluation must be made in a constructive spirit and inappropriate or pejorative language will not be accepted.
The maximum length will be 400 words.

Curriculum Vitae
Brief CV specifying the average grade of the credits passed, the level of accredited languages, academic stays abroad and professional experience.

3. Collaboration and confidentiality

As set out in the regulations of the University of Valencia (article 4, points 4 and 5), the TFG can be carried out in collaboration with other institutions, organizations or companies different from the University of Valencia, with which there is an agreement. In this case, it is necessary to specify, beforehand, if there were restrictions that, for reasons of confidentiality, could prevent the publication of some results of the work carried out.

4. Intellectual property owner and responsibility

Once finalized, the TFG is the property of the student, who assumes the authorship of the work carried out and is solely responsible for the opinions and value judgments that may appear from the reading of the work

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the bachelor's thesis	9,00
Presentation and defence of the bachelor's thesis	1,00
Total hours	**10,00**

NON PRESENCIAL ACTIVITIES

Activity	Hours

Independent preparation of the bachelor's thesis	250,00
Preparation of the bachelor's thesis project	40,00
Total hours	**290,00**

TEACHING METHODOLOGY

For the teaching methodology see the Teaching Guide for the Final Degree Project of the Faculty of Economics.Economics:

https://www.uv.es/uvweb/economia/es/estudios-grado/trabajo-fin-grado/trabajo-fin-grado-1286012475274.html

EVALUATION

The assessment of the work is governed by the provisions of the Final Degree Project Teaching Guide of the Faculty of Economics https://www.uv.es/uvweb/economia/es/estudios-grado/trabajo-fin-grado/trabajo-fin-grado-1286012475274.html except for the assessment described below.

The assessment of the Tutor will be based on two aspects: 90% of the final grade will correspond to the evaluation of the Project according to the criteria specified below, and 10% will correspond to the assessment of the completion of the Informational Competences course. Students must send their academic Tutor at least the unified activity template of the course.
