COORDINATION

SUMMARY

The aim of this subject is to provide the student with a general knowledge of the Spanish tax system through the study of the main existing taxes in our country, particularly state taxes. This is without prejudice to introducing the analysis of the taxes corresponding to other territorial entities, i.e. the Autonomous Communities and Local Entities. Systematically, this subject is located, within the Law Degree Syllabus, between the compulsory subjects "Régimen jurídico de la Hacienda pública" and "Práctica tributaria", thus following a logical sequence of study that moves from the knowledge of the general concepts of this legal discipline and, very especially, Tax Law, passing through its application to the study of taxes in particular and concluding, by way of a recapitulation with an eminently practical nature, in the application of the knowledge and competences previously acquired in the last of the compulsory subjects assigned to the area of Financial and Tax Law.

Law.

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

COMPETENCES / LEARNING OUTCOMES
