SUMMARY

Strategic Management is a compulsory course, which is taught in the first semester of the second year of the Double Degree Law-Economics. It consists of 4.5 ECTS credits.

This course tries to provide students with essential knowledge and skills for business management in today's competitive environments characterized by a high degree of turbulence. This subject proposes a content program that provides the student with the basic knowledge and skills necessary to study the current approaches of company management, applying a global and integrating approach to analysis and strategic business decisions.

The Strategic Management constitutes a way of conceiving the direction of the company in today's environments. Through this management system, the people in charge of running the companies try to guide their course and development, seeking a balance between development and long-term survival, and profitability and the achievement of short-term objectives. To apply this management system in professional practice, the student must begin by assimilating the process of formulating the strategy and the strategic analysis models in order to then understand the factors and elements that can facilitate or

hinder the correct implementation or implementation of strategies. these strategies.

In a synthetic way, with this subject the student will address the following contents:

- Introduction to Corporate Strategy
- Strategic development patterns
- Environment analysis
- Resources, competences and strategic capability
- Stakeholders expectations and organisational goals
- Foundations of the strategic choice
- Growth strategic options
- Assessment and selection of strategies
- Organisational structure and design
- Resource allocation and control
- Organisational change direction

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

No prior knowledge, other than the degree entry requirements, needs to be accredited to take this course

COMPETENCES / LEARNING OUTCOMES

DESCRIPTION OF CONTENTS

1. Lesson 1. Introduction to the strategic process

- 1.1. Origin of Strategic Management and Strategic attitude
- 1.2. Strategy: definition and components.
- 1.3. The process of Strategic Management
- 1.4. Levels of Strategy

- 2.1. Mission, vision, objectives
- 2.2. Corporate governance
- 2.3. Corporate Social Responsibility

2. Lesson 2. Strategic Intent

- 2.1. Mission, vision, objectives
- 2.2. Corporate governance
- 2.4. Stakeholders and power map

3. Lesson 3. External analysis

- 3.1. General environmental factors: PESTEL analysis
- 3.2. Analysis of the industry and competitive environment
- 3.3. Intra-sectorial analysis: Strategic Groups

4. Lesson 4. Internal analysis

- 4.1. Resources, Capabilities and Competitive advantage
- 4.2. Methods of analysis
- 4.3. Integration of internal and external analysis: SWOT analysis

5. Lesson 5. Corporate strategies

- 5.1. Framework for designing strategies
- 5.2. Strategic development direction
- 5.3. Types of diversification and strategic implications
- 5.4. Development modes: internal, external and mixed development

6. Lesson 6. Competitive strategy

- 6.1. Competitive Argument
- 6.2. Generic strategies: leadership in costs versus differentiation
- 6.3. Strategic Clock model: contributions and limitations

7. Lesson 7. Strategy Evaluation and Selection

- 7.1. Convenience
- 7.2. Acceptability analysis
- 7.3. Feasibility analysis

8. Lesson 8. Implementation: Planning and control systems

- 8.1. The control process
- 8.2. Planning and Control systems

9. Lesson 9. Organizational design

- 9.1. The design of the organization and its relation to the strategy
- 9.2. Coordination mechanisms
- 9.3. Contingency factors
- 9.4. Types of Organizational Structures

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Theoretical and practical classes	45,00
Total hours	45,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at other activities	0,00
Individual or group project	0,00
Independent study and work	0,00
Preparation of lessons	0,00
Preparation for assessment activities	0,00
Resolution of case studies	0,00
Total hours	0,00

TEACHING METHODOLOGY

There will be a lecture session and a practice session per week. Students in the class will be split into two sub-classes (sub-groups) for practice sessions. Practice sessions will consist of working on case studies, developing workshops, presentations and discussions, learning on IT tools relevant for the subject, etc. Lecture slides and practice sessions guidelines and relevant materials will be uploaded onto the course's virtual classroom (aulavirtual.uv.es). Since this course is part of a full-time degree, attendance to all classroom activities is important, and attendance to all practice sessions is compulsory.

Students are encouraged to participate actively in all classes, including lectures. Term permanent student teams (of three or four people) will be made, within each practice sub-class, as a basis for working on important components of the practice side of the course (case studies, presentations, team project, etc.).

The lecturer will create team mail boxes in the virtual classroom, where students will have to upload their assignments by the established deadlines. Should the students have any course-related queries, questions or feedback, or should they need any guidance or advice on practice assignments, besides being able to contact the lecturer by email, they are encouraged to attend personally the (voluntary) office tutorials during the lecturer's office hours.

EVALUATION

The assessment of "Strategic Management" course consists of two parts:

- Theoretical contents of the course: these contents are assessed through a written exam, with a maximum mark of 7 points out of 10 (70% of the grade). The assessment of the theoretical contents of the course takes place through a written exam consisting of a set of objective questions (multiple choice test) and some opening questions.

- Practical application of the contents (Continuous Assessment - CA) of the course: this part of the assessment marks 3 points out of 10 as a maximum (30% of the grade) and is based on the following criteria:

- Attendance is compulsory, that is, not attending the practical sessions will have a penalty. When the student overcomes the figure of 3 absences, whether if they are justified or not, will be marked with a 0 in the CA grade.
- 30% of the EC grade will be based on the student's work during the practices (individual work done in class + active participation and interest during the practice sessions) and the evaluations of the groupwork that the student will carry out during the practices. This part of the evaluation is considered, due to its collective nature, non-recoverable.

CA activities, given their nature and their development in the classroom, are not recoverable, and it is not possible to design an alternative exam that evaluates the acquisition of learning outcomes in the second call. This topic has been known by the student and will be communicated to him at the beginning of the course, in accordance with the regulations of the University of Valencia approved by the Governing Council on May 30, 2017 (ACGUV 108/2017).

RESTRICTIONS

The student needs to pass the written exam so that the CA mark is considered when calculating the final grade of the course.

SECOND CALL

When the student does not pass his/her first call, he / she will have to do, in the second call and on the date that the Faculty indicates, an examination with similar characteristics to those of the first call. For this second call, the grades of non-recoverable CA activities will be kept. If a student fails in the second call, no grade is kept for the next course.
