Implement the skills needed for planning and managing work schedules.

Incorporate digital technologies into research design and data analysis.

Integrate knowledge of history with archaeological data from a diachronic perspective.

Interpret materiality through a process combining information from different disciplines (archaeology, history, history of art).

Know the fundamentals of current legislation regarding the protection, conservation and dissemination of archaeological heritage.

Know the sciences that investigate the evolution of humanity, particularly history, as a pillar for understanding and reconstructing the past.

Learn autonomously, making informed decisions in different contexts, issuing judgements based on experimentation and analysis and transferring knowledge to new situations.

Maintain an attitude of commitment and active participation as a basis for teamwork.

Maintain the scientific rigour appropriate to the basic information provided by a historian.

Possess the ability to gather and interpret relevant historical data.

Promote teamwork as a basis for achieving collaborative work.

Promote technological, social or cultural progress, in academic and professional contexts, within a society

based on knowledge and respect for: a) fundamental rights and equal opportunities for women and men, b) the principles of equal opportunities and u

Propose creative and innovative solutions to complex situations or problems within the field of knowledge to respond to diverse professional and social needs.

Recognise main elements of material culture considering a broad diachronic perspective from prehistory to the contemporary era.

Recognise the importance of continuing education in order to update analytical techniques and advance knowledge in the field of humanities.

Strengthen commitment to ecological values, assuming their significance for the development of contemporary societies.

Study economic systems and their socio-ecological consequences throughout different historical stages.

Understand the importance of developing critical thinking when addressing social interpretations, committed to the major challenges of today's societies and with emphasis on equality, ecology and sustainable development.

## DESCRIPTION OF CONTENTS

## WORKLOAD

### PRESENCIAL ACTIVITIES

Activity	Hours
Theory	30,00
Other activities	15,00
Classroom practices	15,00
<b>Total hours</b>	<b>60,00</b>

### NON PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at other activities	0,00
Individual or group project	0,00
Independent study and work	0,00
Preparation of lessons	0,00
Preparation for assessment activities	0,00
Resolution of case studies	0,00
<b>Total hours</b>	<b>0,00</b>
