DATA SUBJECT

Code: 41093
Name: Master's Final Project
Cycle: Master's Degree
ECTS Credits: 15
Academic year: 2025-26

STUDY (S)

Degree	Center	Acad. year	Period
2006 - Master's Degree in Dental Sciences	Facultat de Medicina i Odontologia	1	Indefinite (Individuals)

SUBJECT-MATTER

Degree	Subject-matter	Character
2006 - Master's Degree in Dental Sciences	Master's final project	MASTER THESIS PROJECT

COORDINATION

ALMERICH SILLA JOSE MANUEL

SUMMARY

This module of Work of Master's End must constitute the attainment, across a work Guided by a tutor for the different matters in which it is constituted, of the whole baggage of acquired knowledge. This way the scientific acquired methodology, including from the formulation of hypothesis, the withdrawal of information and the whole set of developed procedures will have to see quality of the works reflected in the exigible.

15 credits that constitute this work will be distributed, logically, between the tutorships, the fieldwork, already be experimental and / or clinical, the bibliographical search, the statistical analysis and the hours dedicated to the writing and correction of the document as well as to the preparation of his presentation.

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

The profile of recommended revenue is Licentiate or grade in Dentistry, Licentiate or grade in medicine and Medical specialists in Stomatology

Previous competences recommended for a better utilization of the master:

Knowledge of English language (level of reading and comprehension of scientific texts in the area of the Sciences of the Health).

Knowledge of computer science to level of advanced user of programs Word, Excel, Acces, PowerPoint.

COMPETENCES / LEARNING OUTCOMES

-

Be able to integrate knowledge and handle the complexity of formulating judgments based on information that, while being incomplete or limited, includes reflection on social and ethical responsibilities linked to the application of knowledge and judgments.

Competent being for the realisation of a work of clinical or experimental inquest, reflect it at a document with the suitable scientific methodology and later present it and defend it in front of a tribunal.

Poseer las habilidades de aprendizaje que les permitan continuar estudiando de un modo que habrá de ser en gran medida autodirigido o autónomo

Saber aplicar los conocimientos adquiridos y ser capaces de resolver problemas en entornos nuevos o poco conocidos dentro de contextos más amplios (o multidisciplinares) relacionados con su área de estudio.

Saber comunicar sus conclusiones y los conocimientos y razones últimas que las sustentan a públicos especializados y no especializados de un modo claro y sin ambigüedades.

Saber realizar una búsqueda bibliográfica y documental adecuada para conocer el estado del arte del tema de interés.

Ser capaces de trabajar en un grupo de investigación consolidado.

Ser competentes en el desarrollo de las técnicas de investigación propias del ámbito de la Estomatología y la Odontología, así como en la evaluación e interpretación de los resultados obtenidos mediante las mismas.

To have the ability to choose the more suitable laboratory technique or techniques to deal with the research problem set out.

DESCRIPTION OF CONTENTS

1. INVESTIGATION WORK

The content of the research work will revolve around an *in vitro* clinical or experimental research work, or a systematic review of the literature, with or without meta-analysis.

**WORKLOAD****PRESENCIAL ACTIVITIES**

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the master's thesis	0,00
Presentation and defence of the master's thesis	0,00
Total hours	0,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Independent preparation of the master's thesis	0,00
Preparation of the master's thesis project	0,00
Total hours	0,00

TEACHING METHODOLOGY

Autonomous work by the students in the preparation of the project guided by the teaching staff in charge of tutoring.

The gender perspective, respect for diversity and the sustainable development goals (SDGs) will be incorporated into teaching, whenever possible.

EVALUATION

Evaluation of the written memory of the project of investigation , reading and defense before the court that will grant the final qualification of the module
