

**COURSE DATA****DATA SUBJECT**

Code: 42472
Name: Master's final project
Cycle: Master's Degree
ECTS Credits: 12
Academic year: 2025-26

STUDY (S)

Degree	Center	Acad. year	Period
2225 - Master's Degree in Research, Treatment and Associated Pathologies in Drug A	Facultat de Psicologia i Logopèdia	2	Indefinite (Individuals)

SUBJECT-MATTER

Degree	Subject-matter	Character
2225 - Master's Degree in Research, Treatment and Associated Pathologies in Drug A	Master's final project	MASTER THESIS PROJECT

COORDINATION

MIÑARRO LOPEZ JOSE

SUMMARY

The student must know how to use all the resources necessary to carry out research, bibliographies, databases, methods and techniques of basic research, clinical and epidemiological research.

The agents will be the student and the tutor or director of labor, the first will provide the second periodic report, which is raised and the second will oversee all work done by the student. For this, the student must attend regularly scheduled meetings and consult with the tutor any doubts that arise during the development work.

PREVIOUS KNOWLEDGE**RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE**

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

Have completed and passed all modules of the Masters.

COMPETENCES / LEARNING OUTCOMES

-
- Concebir, diseñar, poner en práctica y adoptar un proceso sustancial de investigación con seriedad académica.
- Diseñar e identificar áreas o tema prioritarios necesarios para ser investigados en el ámbito de las drogodependencias.
- Poseer las habilidades de aprendizaje para proponer estrategias y diseños experimentales de acuerdo con los resultados de los diferentes experimentos que se han comentado y que son paradigmáticos en el área de las drogodependencias.
- Realizar una contribución a través de una investigación original que amplíe las fronteras del conocimiento desarrollando un corpus sustancial, del que parte merezca la publicación referenciada a nivel nacional o internacional.
- Saber aplicar el método científico.
- Saber aplicar los conocimientos adquiridos en la titulación a la experiencia profesional.
- Saber argumentar con coherencia y de manera crítica, conclusiva y persuasiva.
- Saber relacionar los estudios cursados con las actividades profesionales.
- Saber utilizar los recursos adecuados para la elaboración del trabajo.
- Ser capaz de comunicar oralmente y transmitir con claridad el método utilizado y los resultados obtenidos.
- Ser capaz de describir con claridad los objetivos propuestos y alcanzados en el trabajo.
- Ser capaz de fomentar, en contextos académicos y profesionales, el avance tecnológico, social o cultural dentro de una sociedad basada en el conocimiento.
- Ser capaz de sintetizar y destacar los aspectos más importantes del trabajo realizado.
- Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.
- Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.

DESCRIPTION OF CONTENTS

If the work is related to an external practices, it must include the following sections: assessment of the studies completed in relation to the practices, explanation and development of the activities performed, analysis and reflection on the professional practice in which the internship was carried out, skills practiced and the degree of learning achieved, supervision activities conducted by the tutor, conclusions, and proposals.

If the work involves the development of research conduct of research on a topic or issue related to basic, clinical, or epidemiological research in drug addiction. Description of the skills developed, bibliographic review on the subject matter, and data collection for experimental and empirical work.

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the master's thesis	47,00
Presentation and defence of the master's thesis	3,00
Total hours	50,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Independent preparation of the master's thesis	50,00
Preparation of the master's thesis project	200,00
Total hours	250,00

TEACHING METHODOLOGY

Assessment of the studios made in relation to the practices effected, explanation and development of the activities exerted, analysis and reflection on the professional exercise in which they have developed the practices, competitions that have practised and the degree of learning that has achieved , activities of supervision made by the tutor, conclusions and proposals.

Realisation of an investigation on a subject or question linked to the basic investigation, clinical or epidemiológica in drogodependencias, description of the competitions developed, bibliographic review on the matter-researched research of data for the experimental and empirical work.

EVALUATION

The theoretical and practical knowledge should be valued as much as the skills acquired, said all of the following criteria:

- 1. Quality of the work presented: 60%**

The following will be assessed:

Formal Aspects

Introduction: appropriateness, extent and current references

Scientific methodology: participants, procedure and analysis

Results

Conclusions / Discussion

2. **Presentation and Defense: 40%**

The following will be assessed:

Presentation: clarity, organization of the subject, outlining the Main results

Defense job considering as answers to questions that poses the court: knowledge of the subject, scenario alternatives presented below studio.
