deporte.

Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.

Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.

Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.

DESCRIPTION OF CONTENTS

The course aims to equip students with the necessary knowledge to effectively lead, plan, and manage a physical activity and sports organization and/or a sports service, whether public or private. The study of the course content may be complemented through the use of recommended selected bibliography. In addition to the theoretical study of the material presented in class, practical case studies will be carried out to ensure proper understanding.

The course has a strong professional orientation, aimed at helping students resolve common, real-life situations encountered in the management of sports and physical activity organizations, as well as promoting research into the management systems of sports entities and services.

The course is organized into the following thematic blocks:

1. General foundations of strategic planning in sports organizations.
2. Planning in public organizations (City Councils and Universities).
3. Planning in sports federations.
4. Planning in sports competitions and events (this final section includes an introduction to sports protocol management).

WORKLOAD

PRESENCIAL ACTIVITIES

Activity	Hours
Theoretical and practical classes	28,00
Total hours	28,00

**NON PRESENCIAL ACTIVITIES**

Activity	Hours
Attendance at other activities	0,00
Individual or group project	0,00
Independent study and work	46,00
Preparation of lessons	7,00
Preparation for assessment activities	7,00
Resolution of case studies	0,00
Total hours	60,00

TEACHING METHODOLOGY

- In-person and online lectures delivered by the teaching staff (theoretical classes).
- Small-group discussions among students, with or without faculty involvement (usually in seminars).
- Individual study time, either autonomous or supervised (typically for preparing assignments or assessments).
- Presentation of assignments.
- Individual tutoring sessions.

EVALUATION

- Assessment of the content covered in theoretical-practical classes. Weight: 70% of the final grade.
- Completion of a practical case study, individually or in groups, to assess the level of competence acquired. Weight: 30% of the final grade.

Students are reminded that the literal, total or partial copying of others' work and presenting it as one's own will be considered unacceptable academic conduct. Furthermore, under Intellectual Property Law, the total or partial reproduction of others' work is generally prohibited and its infringement may lead to disciplinary actions or criminal charges.
