SUMMARY

The Political Systems and Public Policies course is a 3-credit four-month subject that aims to provide students with the fundamentals to understand both the functioning of Political Systems and the formulation of Public Policies. In turn, the subject aims to train students so that they can relate the two thematic axes, Political Systems and Public Policies. The interests and objectives of the political actors integrated in the Political Systems or the forms of government, elected by different electoral systems in each country, have as one of their identifying variables the nuances that their representatives give to each of the variants of Politics. Public. For its part, the nuance that marks each Public Policy in an electoral contest,

Today more than ever in the face of political changes, the breakdown of bipartisanship in Europe and the emergence of the left in America and global geopolitical change due to the Chinese position and the Russia-Ukraine war, this course becomes relevant. The topics presented and discussed throughout its development, will help professionals to have theoretical knowledge under a critical and applied vision of national, European and world events in terms of Forms of government and their relationship with the application of Public Policies.

WORKLOAD

**PRESENCIAL ACTIVITIES**

Activity	Hours
Theory	15,00
Seminar	15,00
Total hours	30,00

NON PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at other activities	0,00
Individual or group project	0,00
Independent study and work	0,00
Preparation of lessons	0,00
Preparation for assessment activities	0,00
Resolution of case studies	0,00
Total hours	0,00

TEACHING METHODOLOGY

Master classes. Presentation of each of the contents and practical activities, each teacher has academic freedom, always respecting this teaching guide in content and evaluation percentage.

Tutorials will also be offered to students to advise them on both written assignments and preparation for the final exam.

EVALUATION

The grading scale is from 0 to 10 (100%), with 5 being the minimum grade to pass the subject. The subject is evaluated through two processes. Continuous evaluation (CE) (40%) and final evaluation or test (60%). Both parts must be passed with a minimum grade of 5 to be able to be averaged between them.

The CE will be carried out applying academic freedom for the professor, that is, the following can be carried out:

- Oral and/or written tests, consisting of one or several exams that will consist of questions

theoretical and/or theoretical-practical and/or problems.

- The evaluation of practical activities based on the preparation of works/memories and/or

oral presentations.

- The continuous evaluation of each student, based on regular attendance at classes and activities.

The final written test will consist of the written development of an eliminatory multiple choice exercise. The analytical skills and knowledge to be evaluated through said test will be those related to the competencies worked on in the theory sessions. This part will allow you to obtain a score of 0 to 5 points in the final grade. As already mentioned, the minimum rating must be 5.

IMPORTANT

Regarding ChatGPT , it will be considered a very serious offense to plagiarize a work in whole or in part, or to commit academic fraud in the preparation of any work or activity that is requested of the students.

Academic fraud will be understood as any premeditated behavior aimed at falsifying the results of an exam or work, one's own or another's (including the improper use of artificial intelligence such as ChatGPT), carried out as a requirement to pass a subject or accredit academic performance.

NOTES:

1. It is important to note that both continuous assessment and the final theory exam must be passed with a minimum grade of 5 in each.
2. Continuous assessment cannot be retaken, as it is conducted in person during class sessions.

3. Students who do not complete the continuous assessment are allowed to take the final exam; however, in such cases, the exam will account for only 70% of the final grade.
